

**Microsoft**

**Exam Questions PL-900**

Microsoft Power Platform Fundamentals

NEW QUESTION 1

- (Exam Topic 1)

A large retail company implements Power Apps, Microsoft Flow, and the Common Data Service. The board of directors is asking whether users are finding value in the technology. The company would like to measure and report usage of the software. You need to recommend a tool to determine software usage. What should you recommend?

- A. Microsoft Intune
- B. Azure Stream Analytics
- C. Power Platform Analytics
- D. Dynamics 365 Product Insights

Answer: C

Explanation:

The Power Platform Analytics Usage report is the default reports seen by the logged in environment admin. It provides total app launches and daily active users across all apps in the environment. Admins can filter the view with attributes like device platform, player version, country, state, and city. Reference: <https://docs.microsoft.com/en-us/power-platform/admin/analytics-powerapps>

NEW QUESTION 2

- (Exam Topic 1)

A travel company plans to use the Power Platform to create tools that help travel agents book customer travel. You need to recommend solutions for the company. What should you recommend? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Tools

Business rule

Business process flow

Power Automate

Power BI

Answer Area

Requirement	Tool
If a customer is travelling with a person under the age of 18, a field must display to collect date of birth for the under 18 traveler only.	<div>Tool</div>
Ensure that all travel agents use the same process with all customers.	<div>Tool</div>
Send a confirmation email to customers after reservations are complete.	<div>Tool</div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference: <https://docs.microsoft.com/en-us/power-automate/getting-started>  
<https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-create-business-rule#:~:>

NEW QUESTION 3

- (Exam Topic 1)

A company plans to implement Power Platform apps. The company does not plan to use any development tools or plug-ins. Which actions can you perform? For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can synchronize account names with a third-party proprietary database.	<div></div>	<div></div>
You can create invoices from orders and then send the invoices to the customer.	<div></div>	<div></div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365. Reference: <https://docs.microsoft.com/en-us/learn/powerplatform/>

NEW QUESTION 4

- (Exam Topic 1)

You are a customer service manager.  
You need to implement a Power Apps portal that allows customers to submit cases. Which type of data source is used?

- A. Dynamics 365 Connector
- B. Microsoft SharePoint
- C. Microsoft Azure Storage
- D. Common Data Service

Answer: B

Explanation:

SharePoint can be set up to setup customer feedback.  
Note: The PowerApp uses Finance and Operations connector to grab sales order information and SharePoint connector to connect and write the data to SharePoint list.  
Reference:  
<https://powerapps.microsoft.com/en-us/blog/scenario-2-collect-customer-feedback-in-sharepoint-after-order-delivery/>

NEW QUESTION 5

- (Exam Topic 2)  
A toy company creates a text classification model in AI Builder to monitor customer feedback for specific key words.  
When negative feedback is received for a toy, the company wants to proactively perform engineering reviews for the toy and schedule additional training sessions for workers who produce the toy.  
What are two possible ways to achieve the goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Create a canvas app.
- B. Implement the Virtual Agent.
- C. Build a Microsoft Flow.
- D. Use the Common Data Model.

Answer: AC

Explanation:

A (not D): AI Builder comes with:  
A ready-to-use business card reader available in canvas as well as in model-driven apps. Business card reader (Canvas)  
Business card reader (Model-driven)  
Additional canvas components to leverage your AI Builder form processing or object detection models canvas apps.  
C: Use the results from your AI model across Power Platform to create end-to-end solutions that meet your business needs, even if you have no coding skills. For example, create a flow that automates document processing in Power Automate, or an app created with PowerApps that predicts whether a supplier will be out of compliance.  
Reference:  
<https://docs.microsoft.com/en-us/ai-builder/use-in-powerapps-overview>

NEW QUESTION 6

- (Exam Topic 2)  
A company is evaluating ways that they can implement AI Builder.  
For which two scenarios can you use AI Builder? Each correct selection presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Send emails to all ai users who subscribe to a service.
- B. Synchronize data from an external database.
- C. Collect data from several data sources and display a dashboard that shows trending data.
- D. Interpret images and perform an action on the image.

Answer: BD

Explanation:

Reference:  
<https://powerapps.microsoft.com/en-us/blog/introducing-ai-builder-for-powerplatform/>

NEW QUESTION 7

- (Exam Topic 2)  
A company plans to implement solutions that use Common Data Service as a data storage. You need to recommend features to meet the company's needs.  
Which features should you recommend? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.  
NOTE: Each correct selection is worth one point.

Features	Requirement	Feature
business rules		
business process flows	Validate data across multiple fields and entities regardless of the app used to create data.	Feature
Common Data Model	Create visual guides to ensure that users enter data and perform tasks in a consistent manner.	Feature
	Accelerate development by using a standard set of entities for the most common scenarios.	Feature

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

Box 1: business rules

You can create business rules and recommendations to apply logic and validations without writing code or creating plug-ins. Business rules provide a simple interface to implement and maintain fast-changing and commonly used rules.

Box 2: business process flows

Flows Power Automate includes several types of processes, each designed for a different purpose:

- Automated flows. Create a flow that performs one or more tasks automatically after it's triggered by an event.
- Button flows. Perform repetitive tasks simply by tapping a button on your mobile device.
- Scheduled flows. Create a flow that performs one or more tasks on a schedule such as once a day, on a specific date, or after a certain time.
- Business process flows. Ensure that people enter data consistently and follow the same steps every time they work in an app by creating a business process flow.
- Workflows and actions. Dynamics 365 customizers may be familiar with the classic Common Data Service processes, which are workflows and actions.

Box 3: Common Data Model

Model-driven app design is a component-focused approach to app development. Model-driven app design doesn't require code and the apps you make can be simple or very complex. Unlike canvas app development where the designer has complete control over app layout, with model-driven apps much of the layout is determined for you and largely designated by the components you add to the app.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/guide-staff-through-common-tasks-proce> <https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/model-driven-app-overview>

**NEW QUESTION 8**

- (Exam Topic 3)

You create a Power BI dashboard that displays Common Data Model data. You need to share the Power BI dashboard with coworkers and allow the coworkers to collaborate. What are two possible ways to achieve the goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Create a Power Automate flow to export the data into a SQL Server database.  
B. Publish the dashboard as an app to your coworkers.  
C. Export the data to Microsoft Exce  
D. Make required changes and then re-import the data.  
E. Create a Power BI workspace and grant coworkers permissions.

**Answer:** AB

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-create-the-new-workspaces>

**NEW QUESTION 9**

- (Exam Topic 3)

A user is starting to learn about Power Apps.

Which objects should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

A Power Apps app can call a

	▼
connector	
flow	
gateway	
solution	

Actions and triggers are properties of a

	▼
connector	
flow	
gateway	
solution	

- A. Mastered  
B. Not Mastered

**Answer:** A

**Explanation:**

Reference:

<https://docs.microsoft.com/en-us/powerapps/powerapps-overview> <https://docs.microsoft.com/en-us/power-automate/getting-started>

**NEW QUESTION 10**

- (Exam Topic 3)

You are a district manager for a large retail company. You want to provide sales managers with deeper sales insights to ensure that they can make more informed decisions for their stores.

Store managers must be able to view data in near real-time.

You need to create and share a Power BI dashboard that can be used by the store managers.

Which tools can you use? To answer, drag the appropriate reporting types to the correct requirements. Each reporting type may be used once, more than once, or not at all. You may need to drag the split bar between

panes or scroll to view content.

Reporting Types

Power BI Desktop only

Power BI Service only

Power BI Desktop or Power BI Service

Answer Area

Requirement

Create Power BI dashboards that contain a single store's sales information.  
Share the dashboard with your retail managers.

Reporting type

Reporting type

Reporting type

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference:  
<https://docs.microsoft.com/en-us/power-bi/fundamentals/desktop-getting-started>

NEW QUESTION 10

- (Exam Topic 3)

You create reports within Power BI to report on the status of a project. A manager asks you to share the reports with other team members. You decide to create a published app and set permissions to allow other team members to view the reports.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statement	Yes	No
The Power BI published app is stored within the Team site so that others can install it.	<input type="radio"/>	<input type="radio"/>
One of the other project managers installs and modifiers a dashboard within the Power BI published app. The changes are automatically made into the original published app.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference:  
<https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-create-distribute-apps>

NEW QUESTION 15

- (Exam Topic 3)

A company plans to implement Power BI to analyze retail operations data. You need to recommend solutions for the company.

Which Power BI components should the company use? To answer, drag the appropriate Power BI components

to the correct requirements. Each Power BI component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Power BI components

reports

workspaces

dashboards

dataset

Answer Area

Requirement

Allow users to set and receive alerts when data changes beyond specified limits.  
  
View and filter data and export data to Microsoft Excel for further manipulation and analysis.

Power BI component

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Requirement	Power BI component
Allow users to set and receive alerts when data changes beyond specified limits.	workspaces
View and filter data and export data to Microsoft Excel for further manipulation and analysis.	dataset

NEW QUESTION 20

- (Exam Topic 3)  
This question requires that you evaluate the BOLD text to determine if it is correct.  
You have a Power BI report with a page named RevReceived. The page shows revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue. To accomplish this task, you modify the RevReceived page.  
Review the underlined text. If it makes the statement correct, “No change is needed”. If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. duplicate the RevReceived page.
- C. import the RevReceived page.
- D. copy the visuals from RevReceived to a new page.

Answer: B

Explanation:  
Reference: [https://www.tutorialspoint.com/power\\_bi/power\\_bi\\_quick\\_guide.htm](https://www.tutorialspoint.com/power_bi/power_bi_quick_guide.htm)

NEW QUESTION 23

- (Exam Topic 3)  
Your company has an on premises Microsoft SQL Server database that contains legacy sales data. You must display information from the database in a new Power Apps app.  
You need to establish a secure connection between the database and the app. What should you use?

- A. Data source
- B. App
- C. Gateway
- D. Flow

Answer: C

Explanation:  
For an on-premises database, identify a data gateway that was shared with you (or create one).  
Specify Connect using on-premises data gateway, type or paste the server name, the database name, the user name, and the password for the database that you want to use, and specify the authentication type and the gateway.  
Reference:  
<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections/connection-azure-sqldatabase>

NEW QUESTION 27

- (Exam Topic 4)  
A company is considering implementing PowerApps to help manage business processes. Users are trying to understand the purposes and benefits of PowerApps components.  
Match each benefit to its tool. To answer, drag the appropriate benefit from the column on the left to its tool on the right. Each benefit may be used once, more than once, or not at all.  
NOTE: Each correct selection is worth one point.

Answer Area		
Tools	Benefit	Tool
connectors	Easy data integration	
canvas apps	Low code / no code across applications	
AI Builder	Easy to customize front end	
Power Automate		
portals		

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:  
Reference:  
<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator> <https://powerapps.microsoft.com/en-us/blog/create-business-apps-using-powerapps-and->

azure-functions/  
<https://www.forbes.com/sites/adrianbridgwater/2019/06/17/microsoft-offers-premade-no-code-artificial-intellige>

NEW QUESTION 31

- (Exam Topic 4)

A company is creating a canvas app to display data from a legacy system that is located on the company's internal network. You need to connect to the data. What should you use?

- A. custom connector
- B. content pack
- C. data gateway
- D. Power Automate

Answer: C

Explanation:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/gateway-management>

NEW QUESTION 32

- (Exam Topic 4)

You are designing a Power Apps solution that allows users to upload a status report directly to the company Microsoft SharePoint project management site from their mobile device.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statement	Yes	No
You should build a model-driven app in Power Apps.	<input type="radio"/>	<input type="radio"/>
You should build a canvas app in Power Apps.	<input type="radio"/>	<input type="radio"/>
Users must download and run the Power Apps mobile application to use the solution.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: No

Box 2: Yes

Box 3: Yes

When you create an app, or someone shares an app with you, you can run that app on Windows, iOS, Android, or in a web browser.

References:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/app-from-sharepoint> <https://docs.microsoft.com/en-us/powerapps/user/run-app-client>

NEW QUESTION 33

- (Exam Topic 4)

A user is trying to understand the differences between the various ways apps can be built by using Power Apps.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can embed canvas apps in model-driven apps.	<input type="radio"/>	<input type="radio"/>
A Power Apps portal can use only one data source.	<input type="radio"/>	<input type="radio"/>
You must use Power BI to create reports in model-driven apps.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Yes

You can create a canvas app and then embed that within a model driven app. Box 2: No

With the capability to build a portal in PowerApps, you can create a website for external and internal users enabling them to interact with data stored in Common Data Service.

Note: Common Data Service lets you securely store and manage data that's used by business applications. Data within Common Data Service is stored within a

set of entities. An entity is a set of records used to store data, similar to how a table stores data within a database. Common Data Service includes a base set of standard entities that cover typical scenarios, but you can also create custom entities specific to your organization and populate them with data using Power Query. App makers can then use PowerApps to build rich applications using this data.

Box 3: Yes

To get started building a report you'll need the latest version of Power BI Desktop and a PowerApps environment with the latest version of the Common Data Service.

Reference:  
<https://carldesouza.com/how-to-embed-a-canvas-app-in-a-model-driven-app-in-powerapps/> <https://docs.microsoft.com/en-us/powerapps/maker/portals/create-portal> <https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-intro>

NEW QUESTION 37

- (Exam Topic 5)

A business plans to including AI Builder. Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can use a text classification model in AI Builder to retrieve text and analyze its meaning.	<input type="radio"/>	<input type="radio"/>
You can tag Instagram posts that mention your new product.	<input type="radio"/>	<input type="radio"/>
You can send results about the number of mentions of your new product in Instagram to Power BI for inclusion on a dashboard.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference:  
<https://docs.microsoft.com/en-us/ai-builder/text-classification-model-in-flow>

NEW QUESTION 38

- (Exam Topic 5)

You plan to use Microsoft Flow to monitor what people are saying about your company's products. You store the feedback for research and development purposes.

You need to recommend Flow components to use for the solution.

To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Components	Requirement	Component
action		
expression	Retrieve the top five posts from your company's Facebook page.	Component
service	Enter the resulting posts into the product database.	Component
trigger	Combine author and link fields into a single field.	Component
flow type	Run flow every hour.	Component

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Trigger

A trigger is something that triggers or starts the workflow. It could be a new file uploaded to a document library, a new item created in the list or an email sent to your Inbox – something that will start (kick-off the workflow).

There are two types of triggers:

- > Automatic trigger is pre-programmed into the workflow based on a certain rule (i.e. new document or item created, email sent, etc.)
- > Manual Trigger is a trigger initiated by a user. Unlike with automatic trigger above, the workflow will only start when initiated manually by the end user (for example, from the Document Library for a selected file). Manual trigger is only supported for certain types of workflows (i.e. Get feedback from your manager for the selected file)

Box 2: action

An action is something that occurs as a result of the workflow. Box 3: expression

Sometimes users just need to do basic operations like getting the current time, adding numbers together, or replacing a part of a string of text. That's possible inline in any flow action. Microsoft Flow leverages the same Workflow Definition Language used by Azure Logic apps. For new users who are unfamiliar with the expression language, there is an inline help experience that shows how to use each expression as they build out their flow.

Box 4: flow type

There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow.

Reference:

<https://sharepointmaven.com/3-major-components-microsoft-flow/> <https://www.avepoint.com/blog/office-365/office-365-automation/> <https://flow.microsoft.com/de-de/blog/use-expressions-in-actions/>

NEW QUESTION 39

- (Exam Topic 5)

You build a flow using a template. You want to add support for additional business scenarios. You need to ensure that the new workflow does not break existing functionality.

Which flow editing utilities should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Tools	Requirement	Tool
Test		
Flow Checker	Check the new flow for any errors or warnings.	Tool
	Run the flow using previously processed data.	Tool
	Monitor the flow as it is running.	Tool

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Flow Checker

The Flow checker feature will promote higher quality flows by ensuring you follow best practices. By running the checker, you will be able to get answers to questions like: which areas of my flow implementation pose a performance or reliability risk?

For each issue identified, the Flow checker points to specific occurrences within the flow where improvements may be required. And more importantly, you learn how to implement these improvements by following detailed guidance.

Box 2: Test

Box 3: Test Reference:

<https://flow.microsoft.com/en-us/blog/flow-checker-four-connectors/> <https://docs.microsoft.com/en-us/power-automate/modern-approvals>

NEW QUESTION 40

- (Exam Topic 5)

A company uses Dynamics 365 Supply Chain Management and Dynamics 365 Finance. User account data must be synchronized between the two system. You need to ensure that the synchronized data is stored in one place. What should you use?

- A. SQLServer
- B. Common Data Service
- C. Azure Active Directory
- D. Azure IoT Central

Answer: B

Explanation:

Reference:

<https://docs.microsoft.com/en-us/power-platform/admin/data-integrator>

NEW QUESTION 41

- (Exam Topic 5)

A project deadline is approaching. The project manager reports that there are still a number of critical tasks that are not complete.

You need to implement Power Automate to help streamline processes.

Which types of flows should you use? To answer, drag the appropriate flow types to the correct requirement. Each flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Flow types	Answer Area	
	Requirement	Flow type
<input type="checkbox"/> automated	Ensure that all of the steps for completing tasks are consistently followed by all team members.	<input type="text"/>
<input type="checkbox"/> instant	Allow users to send an email to the project lead whenever a task is completed.	<input type="text"/>
<input type="checkbox"/> scheduled	Automatically send a list of completed tasks at the end of each week.	<input type="text"/>
<input type="checkbox"/> business process		

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Reference:  
<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview> <https://docs.microsoft.com/en-us/power-automate/get-started-logic-flow>  
<https://docs.microsoft.com/en-us/power-automate/run-scheduled-tasks>

NEW QUESTION 45

- (Exam Topic 5)  
A company uses Power Automate.  
Which three items can trigger flows? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Lifecycle Services
- B. Microsoft 365 Admin center
- C. Common Data Service
- D. Microsoft Outlook 365
- E. Microsoft Windows Desktop

Answer: ACD

Explanation:

<https://docs.microsoft.com/en-us/power-automate/email-triggers> <https://docs.microsoft.com/en-us/power-automate/connection-cds>  
<https://dynamics365.wordpress.com/category/powerapps/>

NEW QUESTION 47

- (Exam Topic 5)  
A company performs on-site inspections and services for air industrial equipment.  
Field technicians must perform a series of maintenance checks every time they visit a customer site. Every technician performs maintenance tasks in a different order. Some technicians miss steps.  
You need to ensure that all technicians perform the same steps in the same order. What should you use?

- A. Business process flow
- B. AI Builder
- C. Business rule
- D. Virtual Agent

Answer: A

Explanation:

You can help ensure that people enter data consistently and follow the same steps every time they work with a customer by creating a business process flow. For example, you might want to create a business process flow to have everyone handle customer service requests the same way, or to require that people get approval for an invoice before submitting an order. Business process flows use the same underlying technology as other processes, but the capabilities that they provide are very different from other features that use processes.  
Reference:  
<https://docs.microsoft.com/en-us/power-automate/business-process-flows-overview>

NEW QUESTION 49

- (Exam Topic 6)  
A company is evaluating ways to connect Power Platform apps to external services to perform complex activities. For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can create a canvas app that scans and parses documents using Azure Cognitive Services and then adds the appropriate information to Dynamics 365 Sales.	<input type="radio"/>	<input type="radio"/>
You can create a canvas app that uses Azure Cognitive Services to read incident records and identify tickets that need to be escalated based on sentiment score.	<input type="radio"/>	<input type="radio"/>

- A. Mastered

B. Not Mastered

Answer: A

Explanation:  
Yes Yes

NEW QUESTION 54

- (Exam Topic 6)  
You are creating a Power Automate flow.  
You need to retrieve data from several sources deluding Microsoft Excel, Azure Data lake, and GitHub.  
What should you use? To answer, drag the appropriate components to the correct data sources. Each component may be used once, more than once, or not at all.  
You may need to drag the split bar between panes or scroll to view content.  
NOTE: Each correct selection ls worth one point

NEW QUESTION 61

- (Exam Topic 6)  
You create a Power Virtual Agents chatbot for use with Microsoft Teams. You are testing the chatbot. Testers report the following issues:  
> Changes that you make to the chatbot are not seen by testers.  
> When users enter the word refund the chatbot must ask the user the product for which they would like a refund. The chatbot does not ask the user for product information.  
You need to determine what needs to be done to fix the issues.

What should you do? To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

Missing changes

Create a new chatbot.

Publish the chatbot.

Save the topic.

Share the chatbot.

Refund responses are not working as expected.

Change security.

Create a refund topic.

Create a refund chatbot.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:  
Reference:  
<https://docs.microsoft.com/en-us/power-virtual-agents/publication-fundamentals-publish-channels>

NEW QUESTION 64

- (Exam Topic 6)  
You are building Power BI visualizations for a team.  
For each of the following statements, select Yes if the statement is true. Otherwise, select No.  
NOTE: Each correct selection is worth one point.

Statements	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input type="radio"/>	<input type="radio"/>

instant		a flow that allows you to start tasks on demand	instant

NEW QUESTION 66

- (Exam Topic 6)

You are creating a Power Automate approval flow.

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
The addition of an expense report to a Microsoft OneDrive folder can initiate an approval flow.	<input type="radio"/>	<input type="radio"/>
Approvals must follow a sequential order of approval.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Box 1: Yes

Box 2: No

Parallel approvals, integrated approvals, and unanimous approvals are also allowed. Reference:

<https://docs.microsoft.com/en-us/power-automate/modern-approvals> <https://docs.microsoft.com/en-us/power-automate/create-approval-response-options>

NEW QUESTION 69

- (Exam Topic 6)

You have a Power BI report with a page named RevReceived. The page shows gross revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue.

What should you do? To answer, select the appropriate option in the answer area.

Answer Area
You should
<div><div>copy the visuals from RevReceived to a new page.</div><div><b>duplicate the RevReceived page and update the duplicate copy.</b></div><div>import the RevReceived page.</div><div>modify the RevReceived page.</div></div>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area
You should
<div><div>copy the visuals from RevReceived to a new page.</div><div><b>duplicate the RevReceived page and update the duplicate copy.</b></div><div>import the RevReceived page.</div><div>modify the RevReceived page.</div></div>

NEW QUESTION 73

- (Exam Topic 6)

A company is creating a chatbot to replace a frequently asked questions (FAQ) site

You must perform step-by-step testing for all scenarios that are part of a complex user interaction that includes multiple topics. Testers must be able to see the workflow while interacting with the chatbot.

You need to test the chatbot. What should you do?

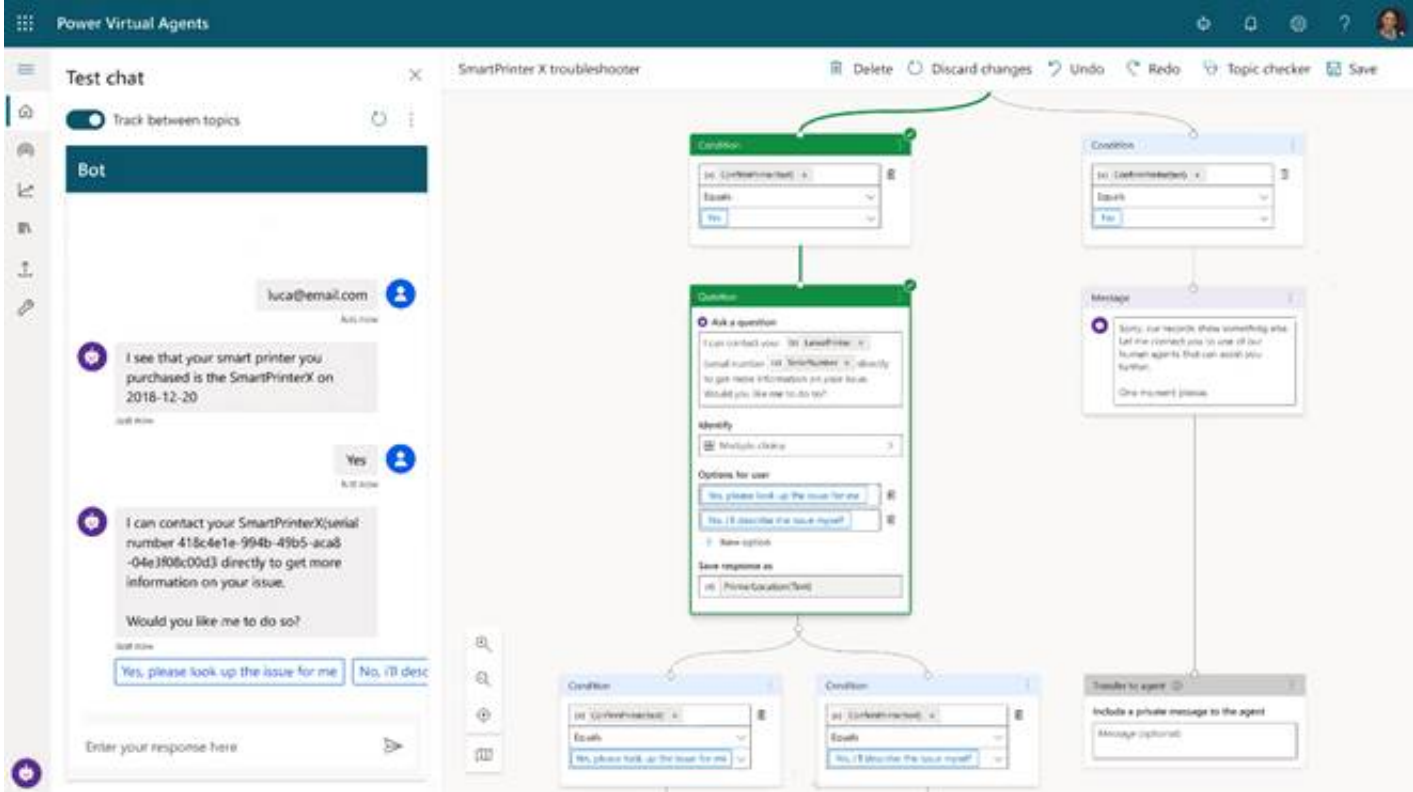

- A. Publish the chatbot and test it in the demo website.
- B. Use the chatbot designer to test the chatbot
- C. View analytics for a chatbot conversation.
- D. Publish the chatbot and test it in any channel

Answer: B

Explanation:

Test and maintain chatbots through an incredibly easy-to-use graphical interface. Recognize and act on dozens of common entities in the user’s conversation such as colors, currencies, ages, dates and times, or create your own, and store user information in variables and use them to branch or create complex conversations.
