Exam Questions MB-335

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert

NEW QUESTION 1
- (Topic 1)
You need to configure production control parameters for liquid cleaning solution manufacturing.
What are two possible ways to achieve this goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Require an electronic signature when the formula is approved.
B. Select Block editing and approve the formula.
C. Select the Block removal of approval option for the formula
D. Select the Block editing option onl
E. D18912E1457D5D1DDCBD40AB3BF70D5D

Answer: BC

NEW QUESTION 2
- (Topic 1)
You need to configure costing for raw materials used to manufacture unscented cleaning solution.
Which form should you use?

A. Cost basis type
B. Quantity and margin template
C. Pricing calculation
D. Pricing template

Answer: B

NEW QUESTION 3
- (Topic 2)
You need to set up the state control for sales of motorcycles.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Create an inclusive restricted product list for United State
B. Do not add the motorcycle part to the list.
C. Create an inclusive restricted product list for United States and add the motorcycle part to the list.
D. Create an exclusive restricted product list for California and add the motorcycle part to the list.
E. Create an exclusive restricted product list for Missouri and add the motorcycle part to the list.

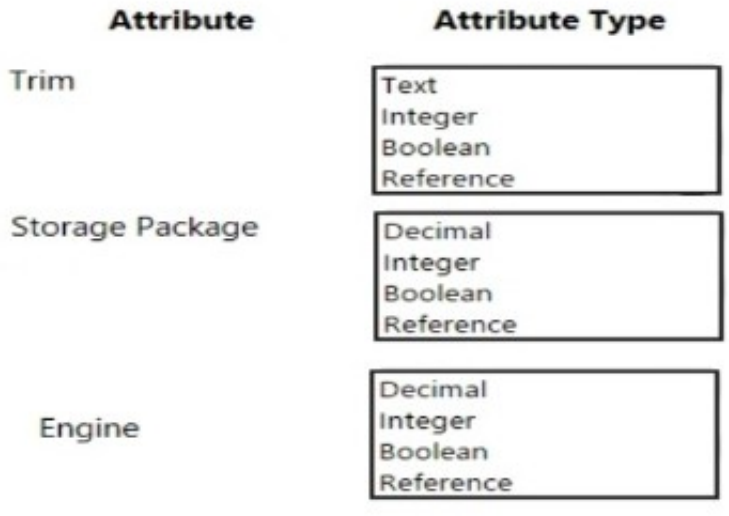
Answer: BC

NEW QUESTION 4
- (Topic 2)
You need to set up the correct production solution for the assembly area. Which solution should you implement?

A. Standard warehousing with Manufacturing execution
B. Standard warehousing for all transactions
C. Advanced warehousing for all transactions
D. Advanced warehousing with Manufacturing execution

Answer: D

NEW QUESTION 5
HOTSPOT - (Topic 2)
You need to configure system attributes.
Which attribute types should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

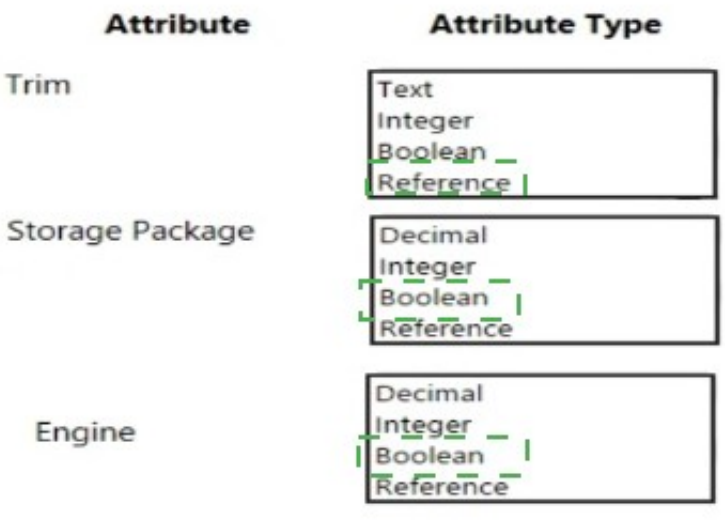


A. Mastered

B. Not Mastered

Answer: A

Explanation:

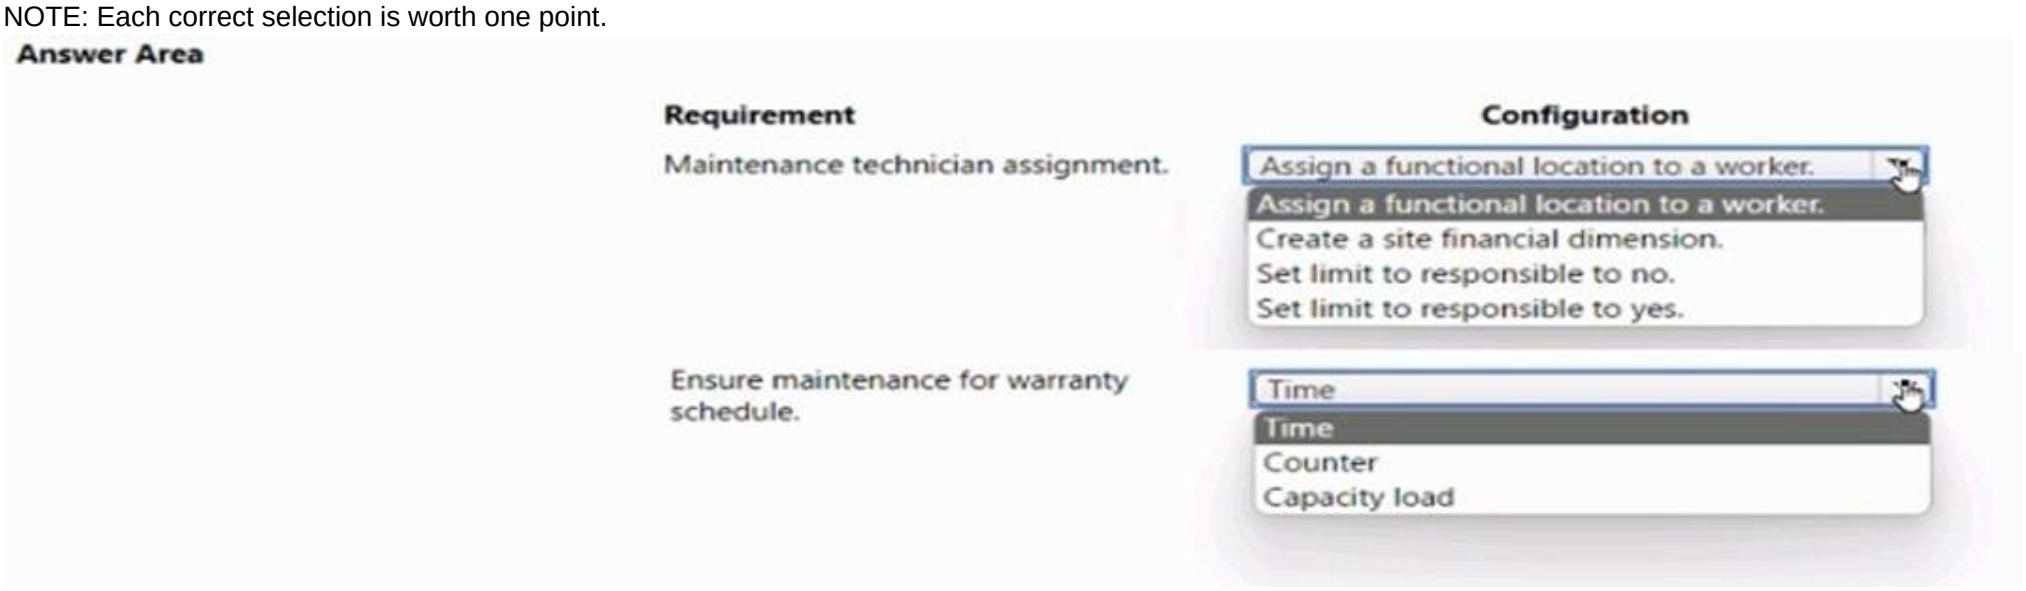


NEW QUESTION 6
- (Topic 3)
You need to create the production orders for standard model bicycles. Which method should you use?

A. Sales order line
B. Master planning execution
C. Supply schedule form
D. Released item
E. All production orders form

Answer: C

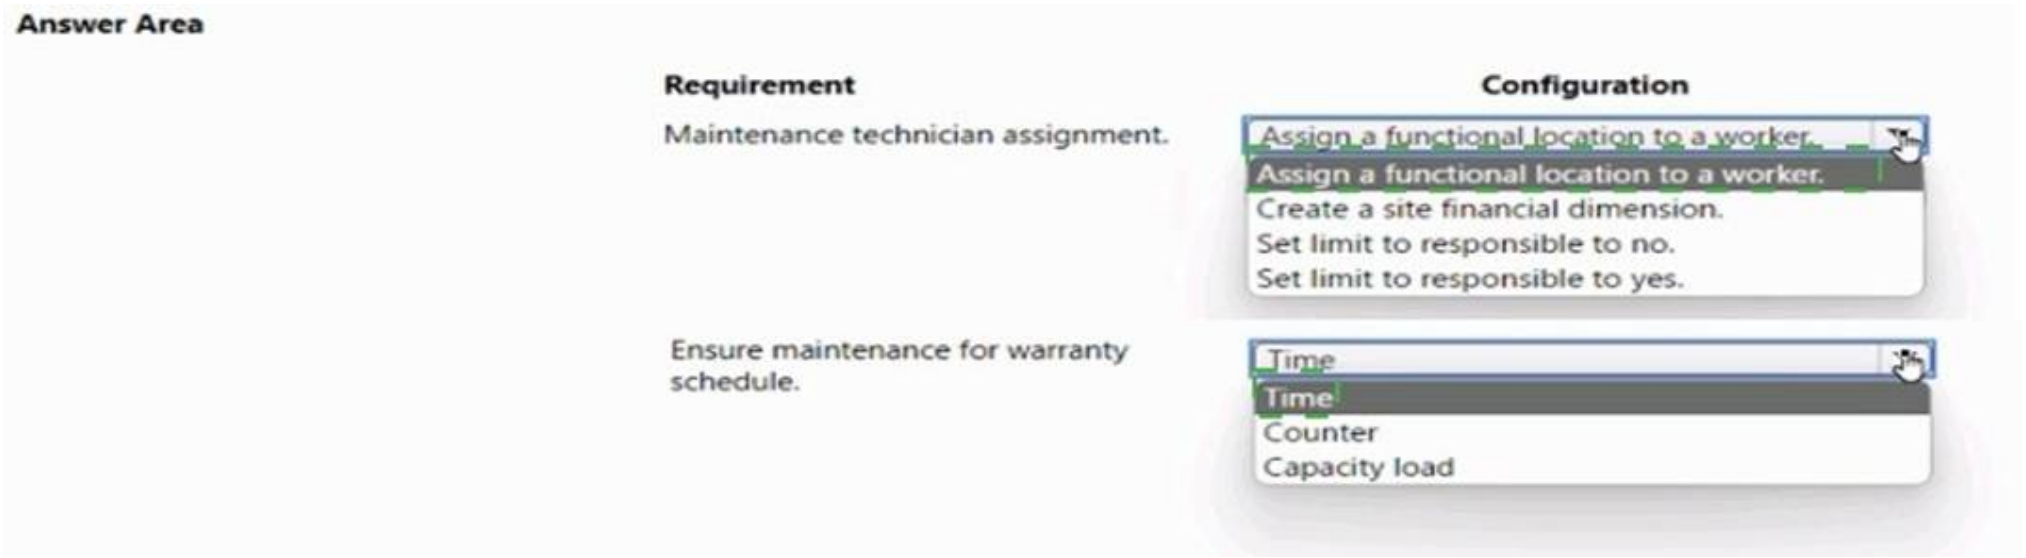
NEW QUESTION 7
HOTSPOT - (Topic 4)
You need to configure the requirements for metal fabrication equipment maintenance. What must you configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 8
DRAG DROP - (Topic 5)
You need to configure the solution for the two issues the production manager reported.
How should you complete the configurations? To answer, move the appropriate configurations to the correct issues. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

Answer: A

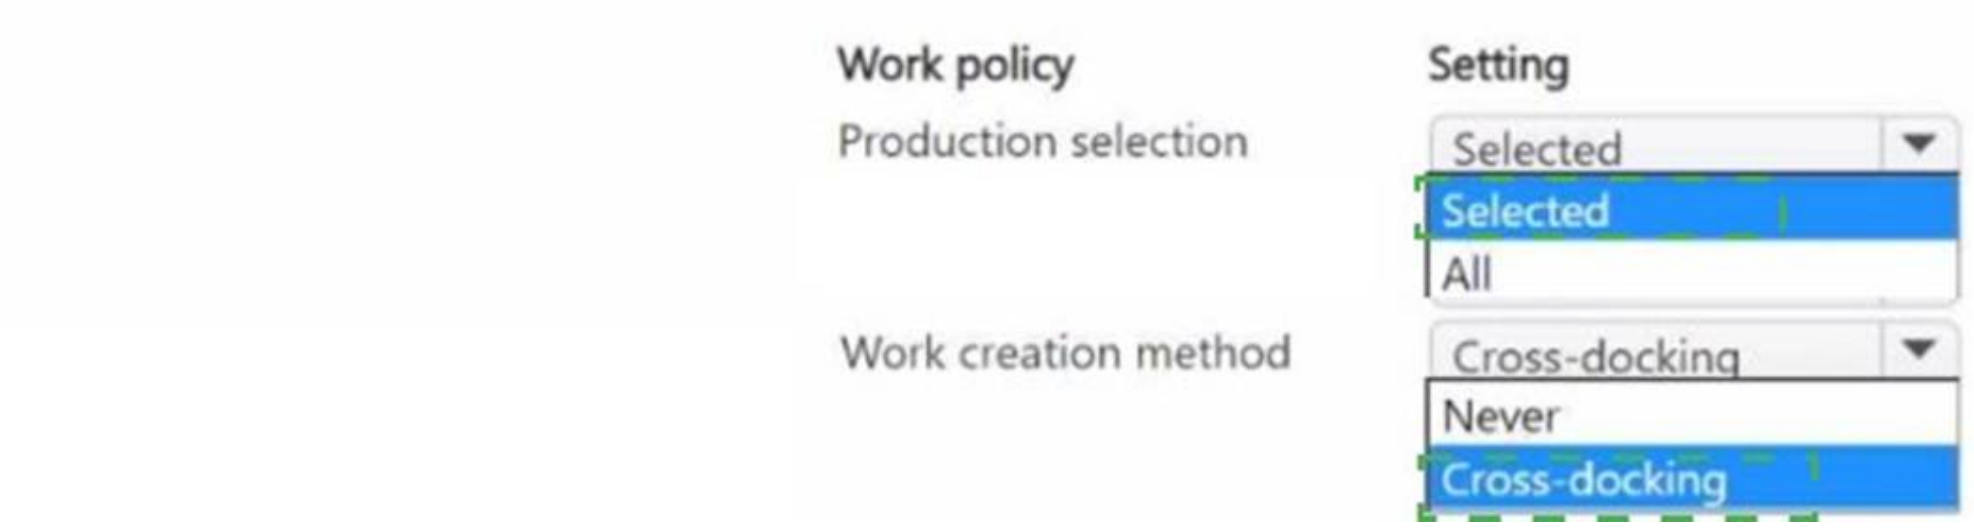
Explanation:

NEW QUESTION 9
HOTSPOT - (Topic 5)
You need to configure the warehouse manager's ModelA subassembly production requirements. Which setting should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

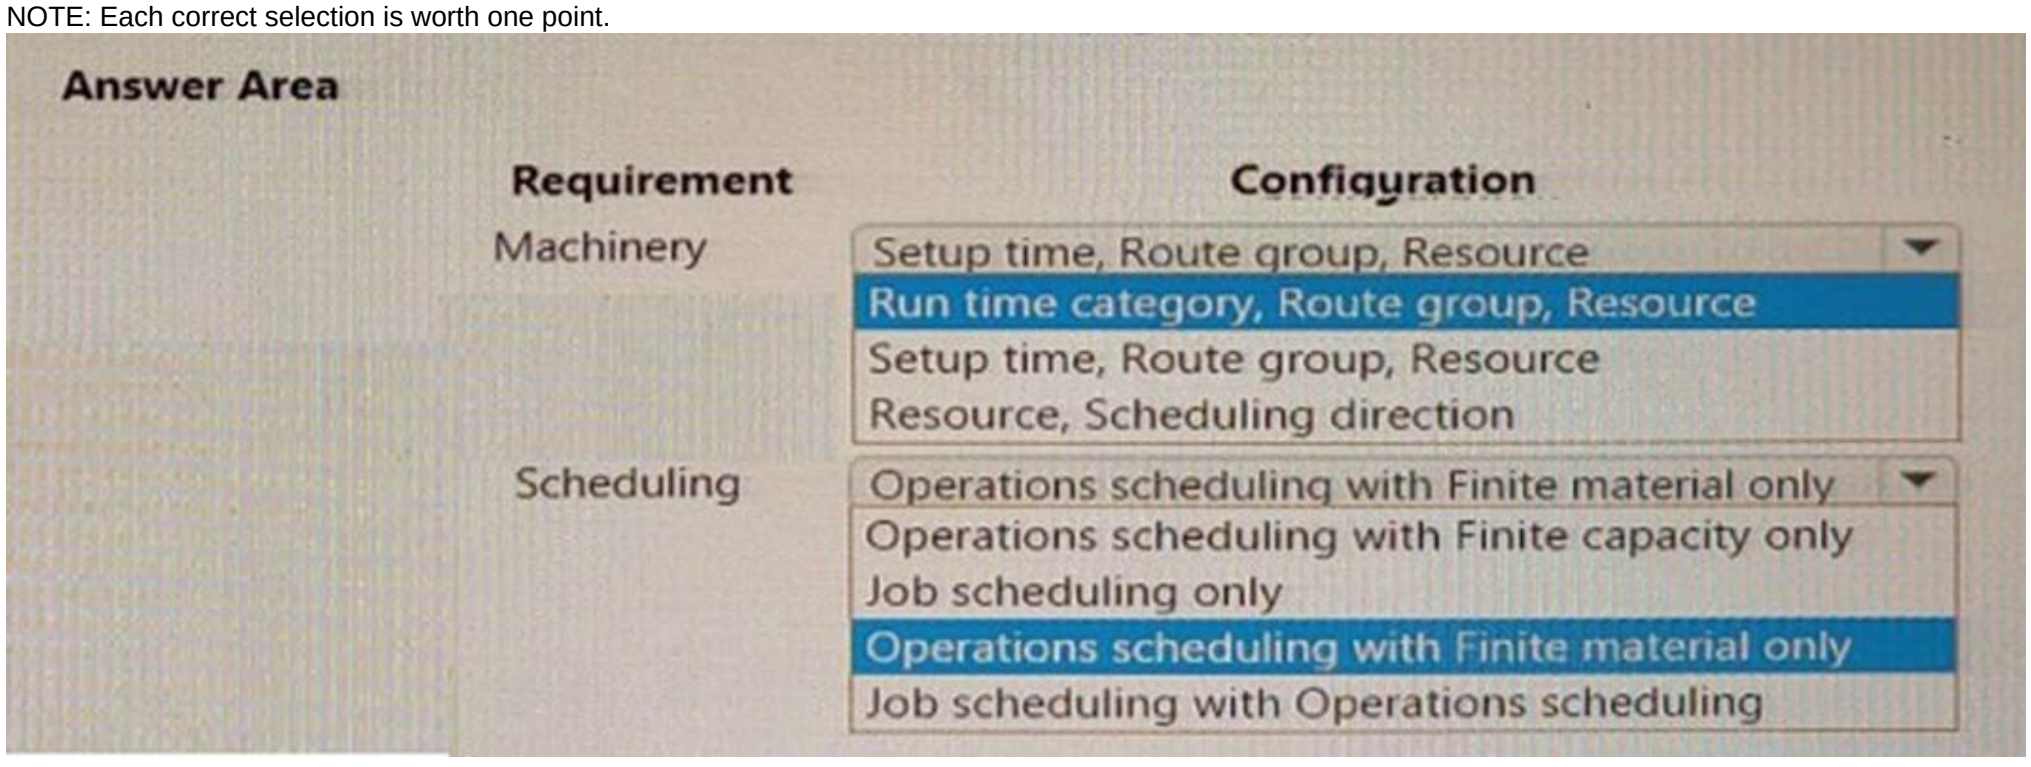
A. Mastered
B. Not Mastered

Answer: A

Explanation:



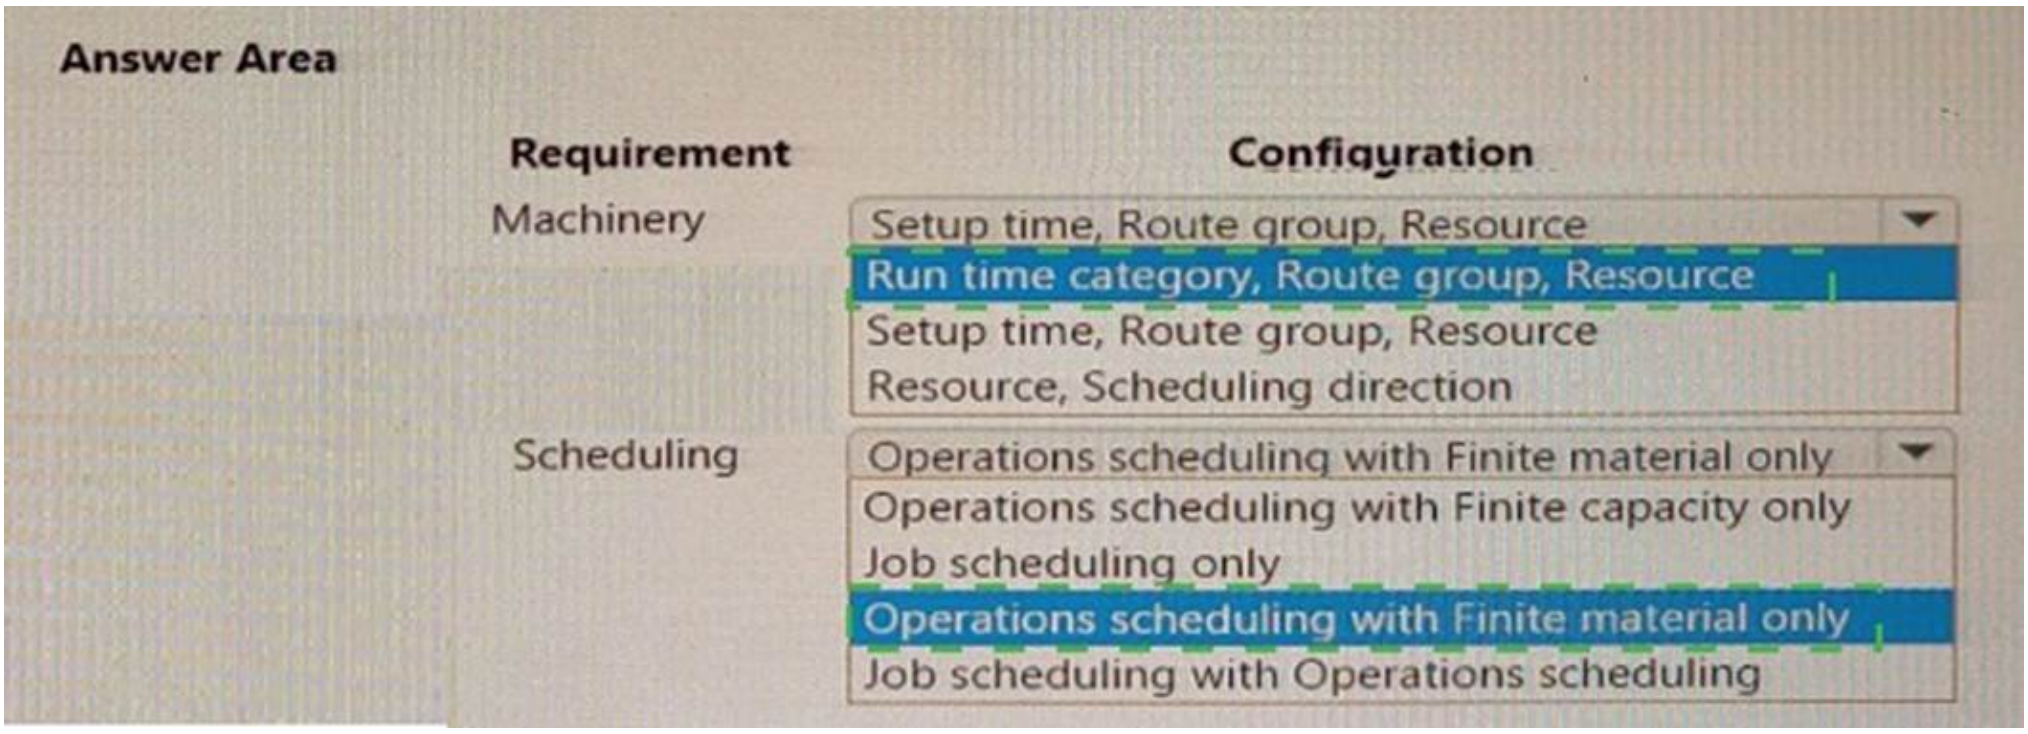
NEW QUESTION 10
HOTSPOT - (Topic 6)
You need to resolve the issue for UserF.
What should you configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 10
- (Topic 6)
You need to resolve the issue for UserB.
What are two possible ways to achieve this goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Set up configuration and weight for partial visibility.
B. Create a product master with predefined variants for ounces and boxes.
C. Set up configuration and weight for full visibility.
D. Create a catch weight item.

Answer: CD

NEW QUESTION 14
- (Topic 6)
You need to configure the system to track the cost and delivery performance of VendorZ. Which two actions should you perform? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. Add an activity to the production route for deliveries.
B. Create a service product and set Stocked product - Yes.
C. Add an activity to the production flow for deliveries.
D. Create a service product and set Stocked product = No.

Answer: AB

NEW QUESTION 17
- (Topic 7)
You produce 100 total units of finished goods. The amount of material used to produce the goods is the equivalent amount of material needed to produce 105 finished goods.
The company must track variances in material compared to the original estimated amount. You must only use one picking list journal for each production order.
You need to post a picking list that accounts for the material required to produce 105 finished goods.
What should you do?

A. Report as finished five additional units in the error quantity field.
B. When creating the lines for a picking list, set the value of the quantity option to 105.
C. Post a picking list for 100 to account for the originally estimated amoun
D. Post an additional picking list to account for the equivalent amount of material to produce 5 finished goods.
E. In the Bill of materials production details, edit the estimated amount for each line to equal 105 units of raw material.

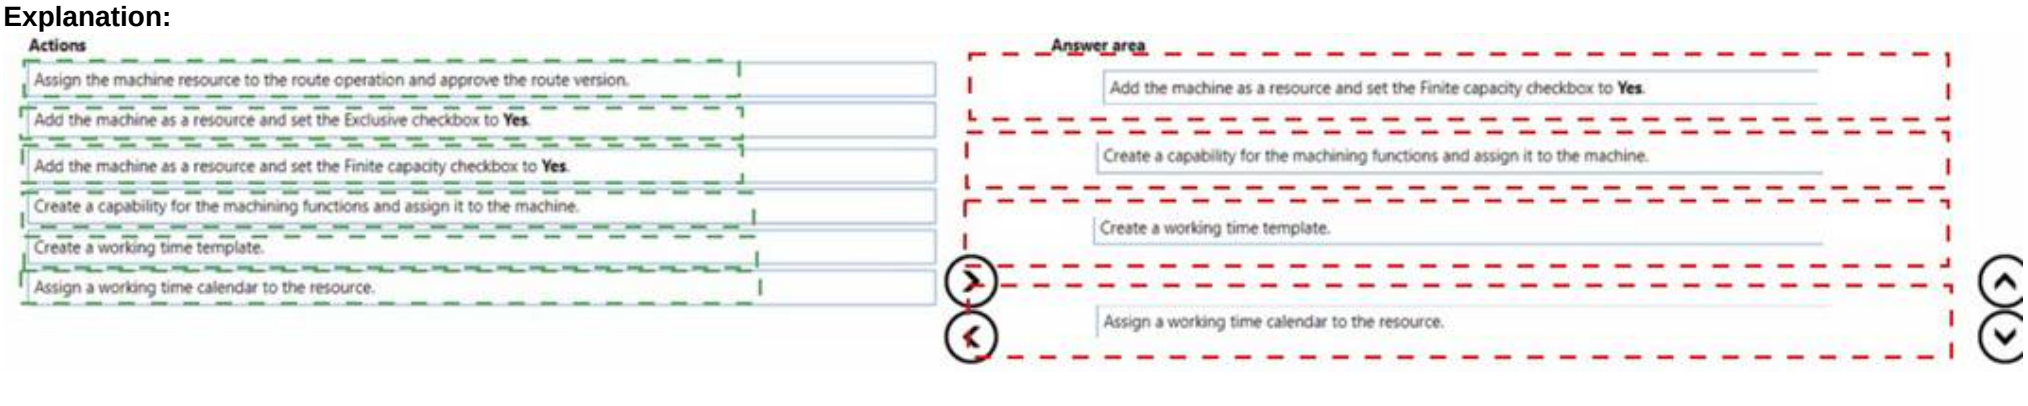
Answer: B

NEW QUESTION 19
DRAG DROP - (Topic 7)
A manufacturing company uses Dynamics 365 Supply Cham Management The company operates three eight-hour shifts per day. Monday through Friday.
The company purchased equipment for a new process that cannot be performed with easting equipment. This specialized equipment performs only this unique task. The machinery must always be monitored and controlled by a worker.
The machine must be added to the existing production line and be ready as soon as possible. Future planned production orders must not overload the running maximums of the new machine.
You need to configure the system.
Which four actions must you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 20
- (Topic 7)
A company uses engineering change management in Dynamics 365 Supply Chain Management. The Product readiness checks feature is turned off.
An existing engineering product must be reconfigured for a new product readiness policy. You need to change the product readiness policy.
Where should you make this change?

A. default order settings
B. shared product
C. engineering category
D. product configuration model
E. released product

Answer: C

NEW QUESTION 24
- (Topic 7)
You are a process engineer evaluating lean vs. Discrete processing. You warn to convert a Kanban item. This item has the following Lean setup:
• The setup uses a lean schedule group with a throughput ratio = 2.
• The process activity tied to production flow has the following runtime activity times: time = 3 mm. per quantity = 1.
• The work cell capacity has a model type of Throughput and an average throughput quantity of 60 per a capacity period of standard workday (8-hour day).
• The throughput is 10 per hour.
You need to set up a Discrete operation to mirror the item s production flow activity. What should you do?

A. Create a route with a runtime = 1, a process quantity = 10. and the operation's hours/time = 1.
B. Create a route with a runtime - 6, a process quantity- 1, and the operation's hours/time - 1.
C. Create a route with a runtime = 10. a process quantity = 6. and the operation's hours/time= 1.
D. Create a route with a runtime = 1. a process quantity = 1, and the operation's hours/time = 1.

Answer: B

NEW QUESTION 25
- (Topic 7)
A manufacturing plant uses lean manufacturing Operators process Kanban consumption manually using a mobile device.
The production team must use automatic empty registration for some of the event. Unbars Registration must occur when the last job of a Kanban is completed.
You need to update the Kanban rule to meet this requirement. What Kanban should you update?

A. Set a fired Kanban quantity.
B. Select to register as empty when handling units are received.
C. Select to register as empty when the source requirement is registered.
D. Select to manually register as empty

Answer: B

NEW QUESTION 29
DRAG DROP - (Topic 7)
A discrete manufacturer uses the time and attendance registration for production operations.
All employees register daily clock in and clock out times during a 40-hour. Monday through Friday workweek.
Pay periods are every two weeks. Workers are paid hourly.
The production manager will create work schedules with the following windows:

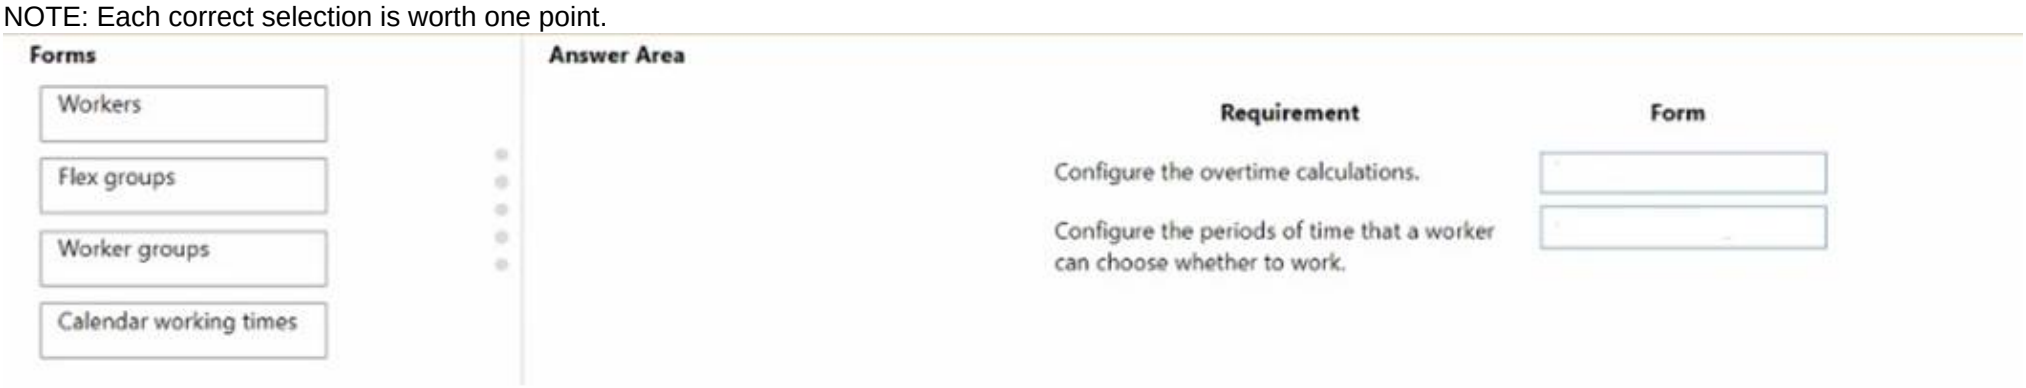
• Mandatory work hours
• Work hours during which employees can leave early without accruing absences
• Work hours during which employees can work extra time

If a junior production worker works over 90 hours in a pay period. the worker will receive lime and a half over 80 hours. If a senior production worker works over 90 hours in a pay period, the worker will receive double time over 80 hours.

Vou need to configure the system for these requirements.

Where should you configure this functionality? To answer, drag the appropriate forms to the correct requirements. Each form may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

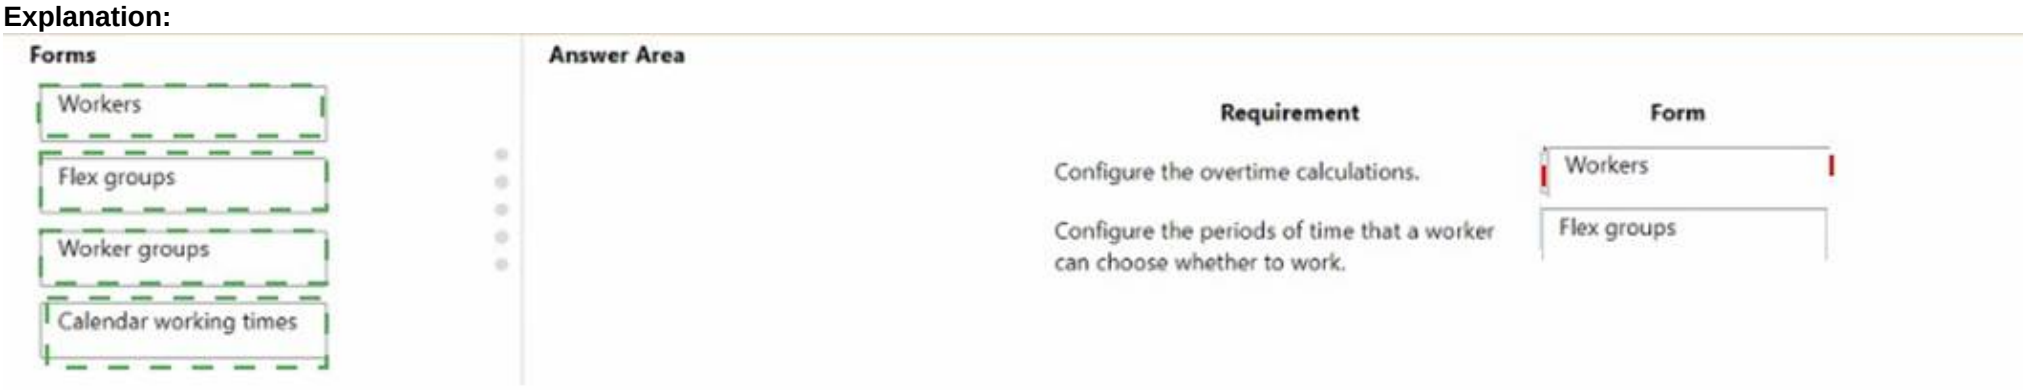
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 30

HOTSPOT - (Topic 7)

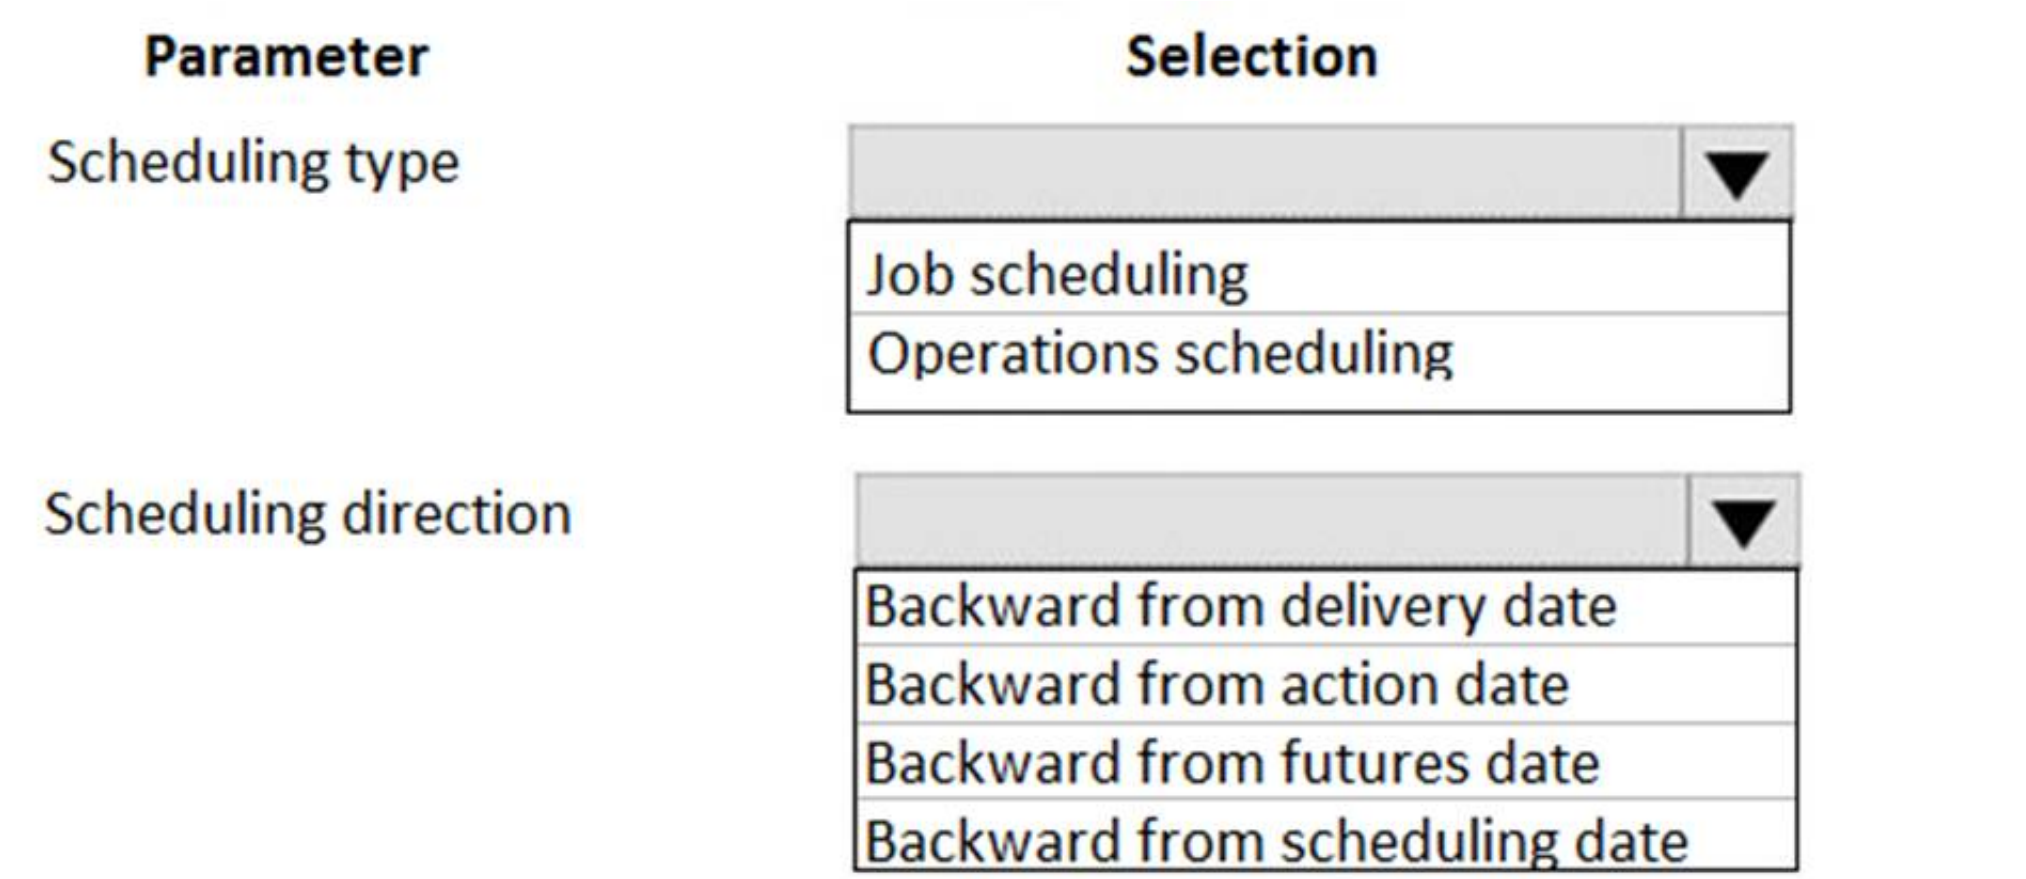
You are the production scheduler at a manufacturing company. You schedule estimated production orders and ensure that capacity is used efficiently.

You have an order that must be scheduled at the resource group level and scheduled backward from the delivery date specified on the production order.

You need to schedule the order.

Which scheduling parameters should you use? To answer, select the appropriate option in the answer area.

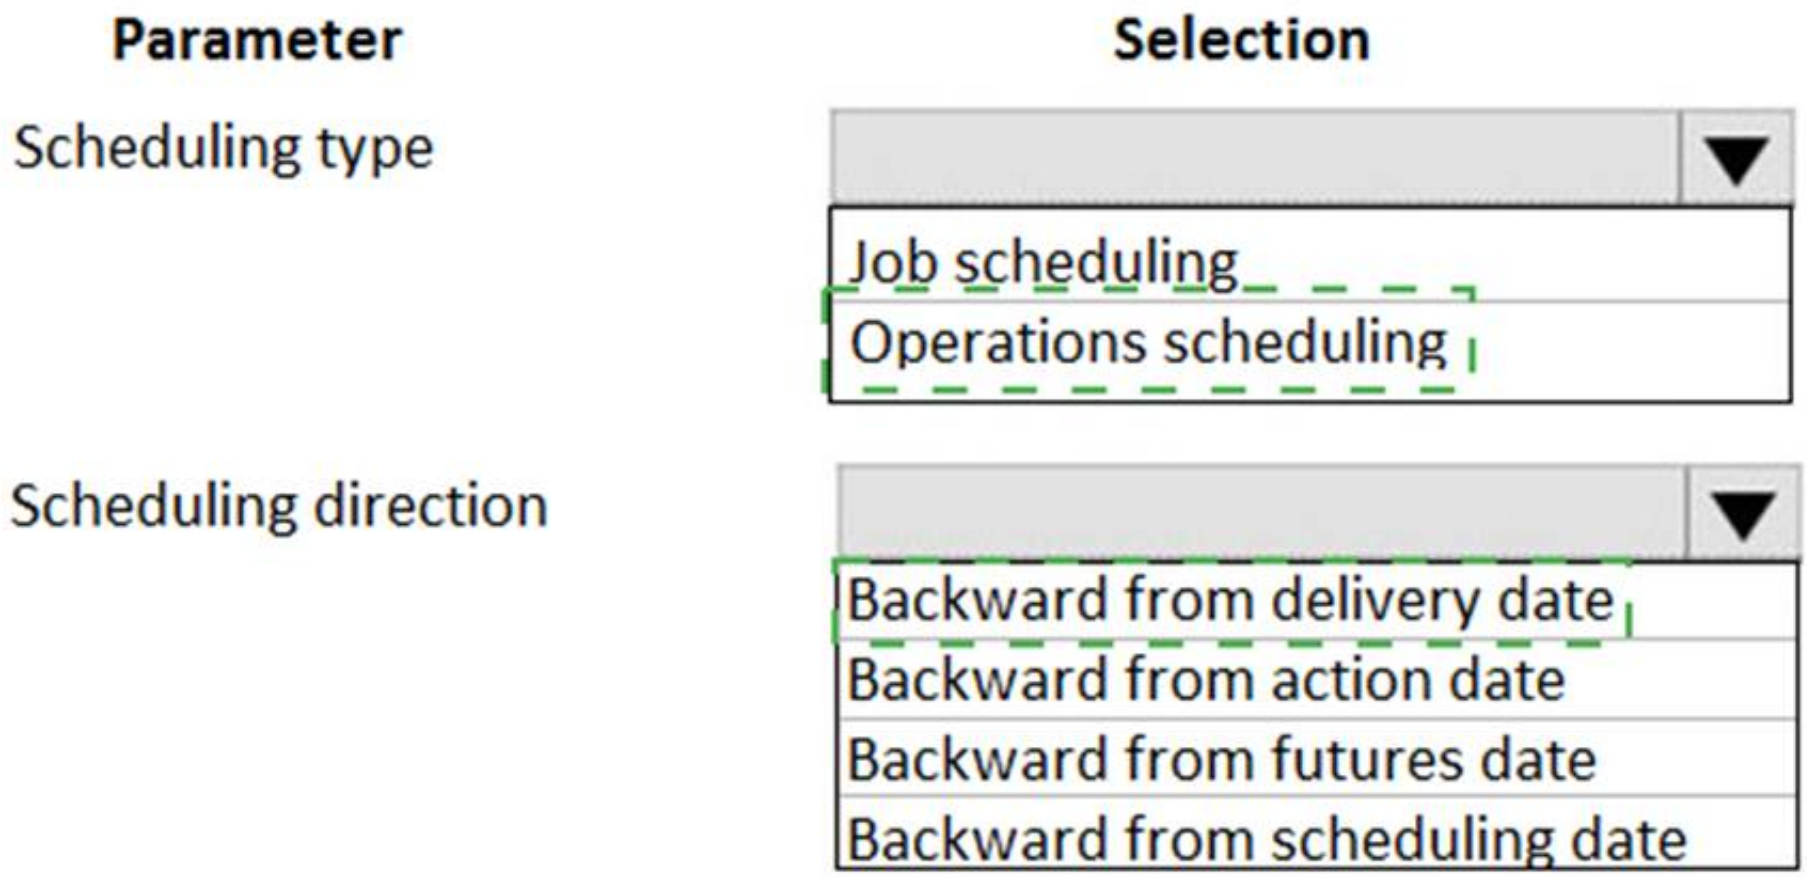
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:

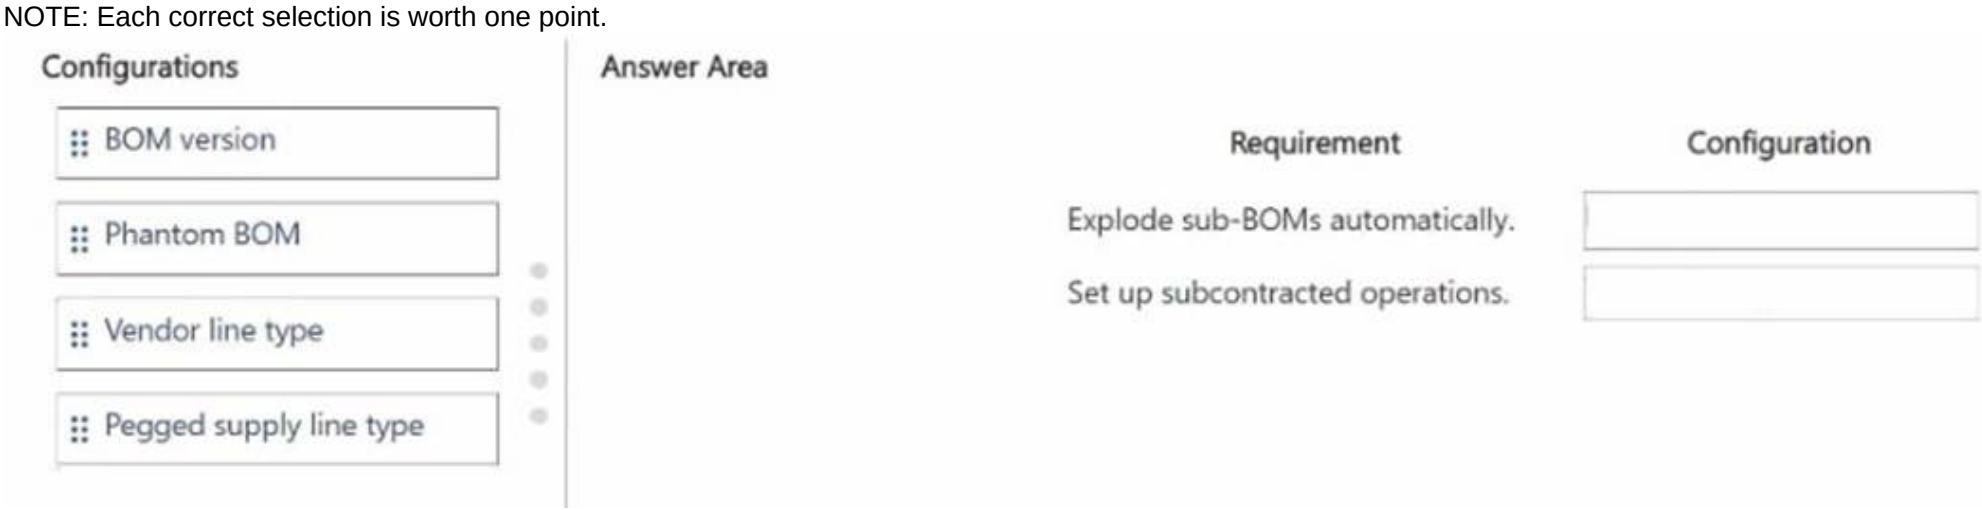


NEW QUESTION 31
- (Topic 7)
A company uses Dynamics 365 Supply Chain Management. Equipment installations in multiple regional locations require monthly maintenance.
Two maintenance technicians have holiday time off scheduled this month.
You need to ensure that all scheduled work orders are completed within the month around the holiday schedules.
Which feature should you use?

A. Capacity toad calculation
B. Operations scheduling
C. Activity-based subcontracting
D. Planning optimization
E. Job scheduling

Answer: E

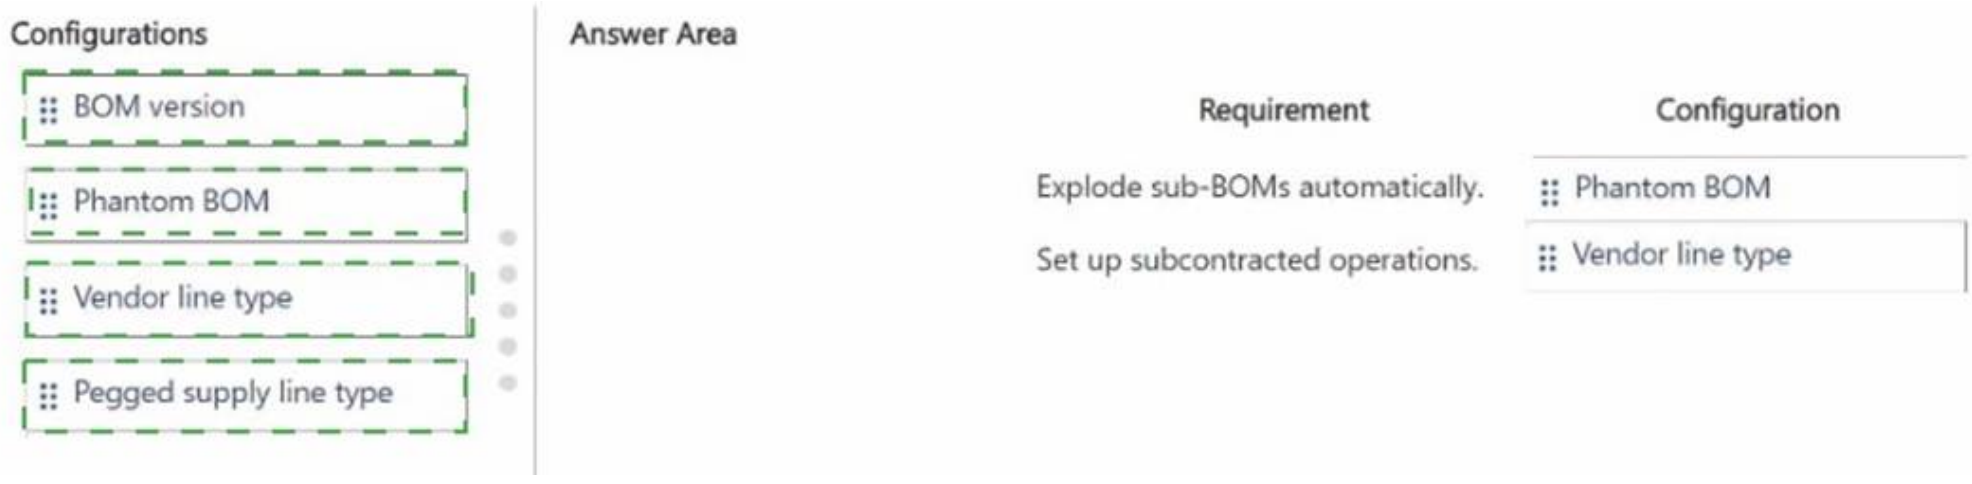
NEW QUESTION 35
DRAG DROP - (Topic 7)
A manufacturing company is implementing Dynamics 365 Supply Chain Management.
You have a bill of materials (BOM) for each finished good. Finished goods may have subcontracted operation steps.
When a user views a BOM for a finished good, the finished good must be exploded automatically.
You need to configure the BOM lines.
What should you configure? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



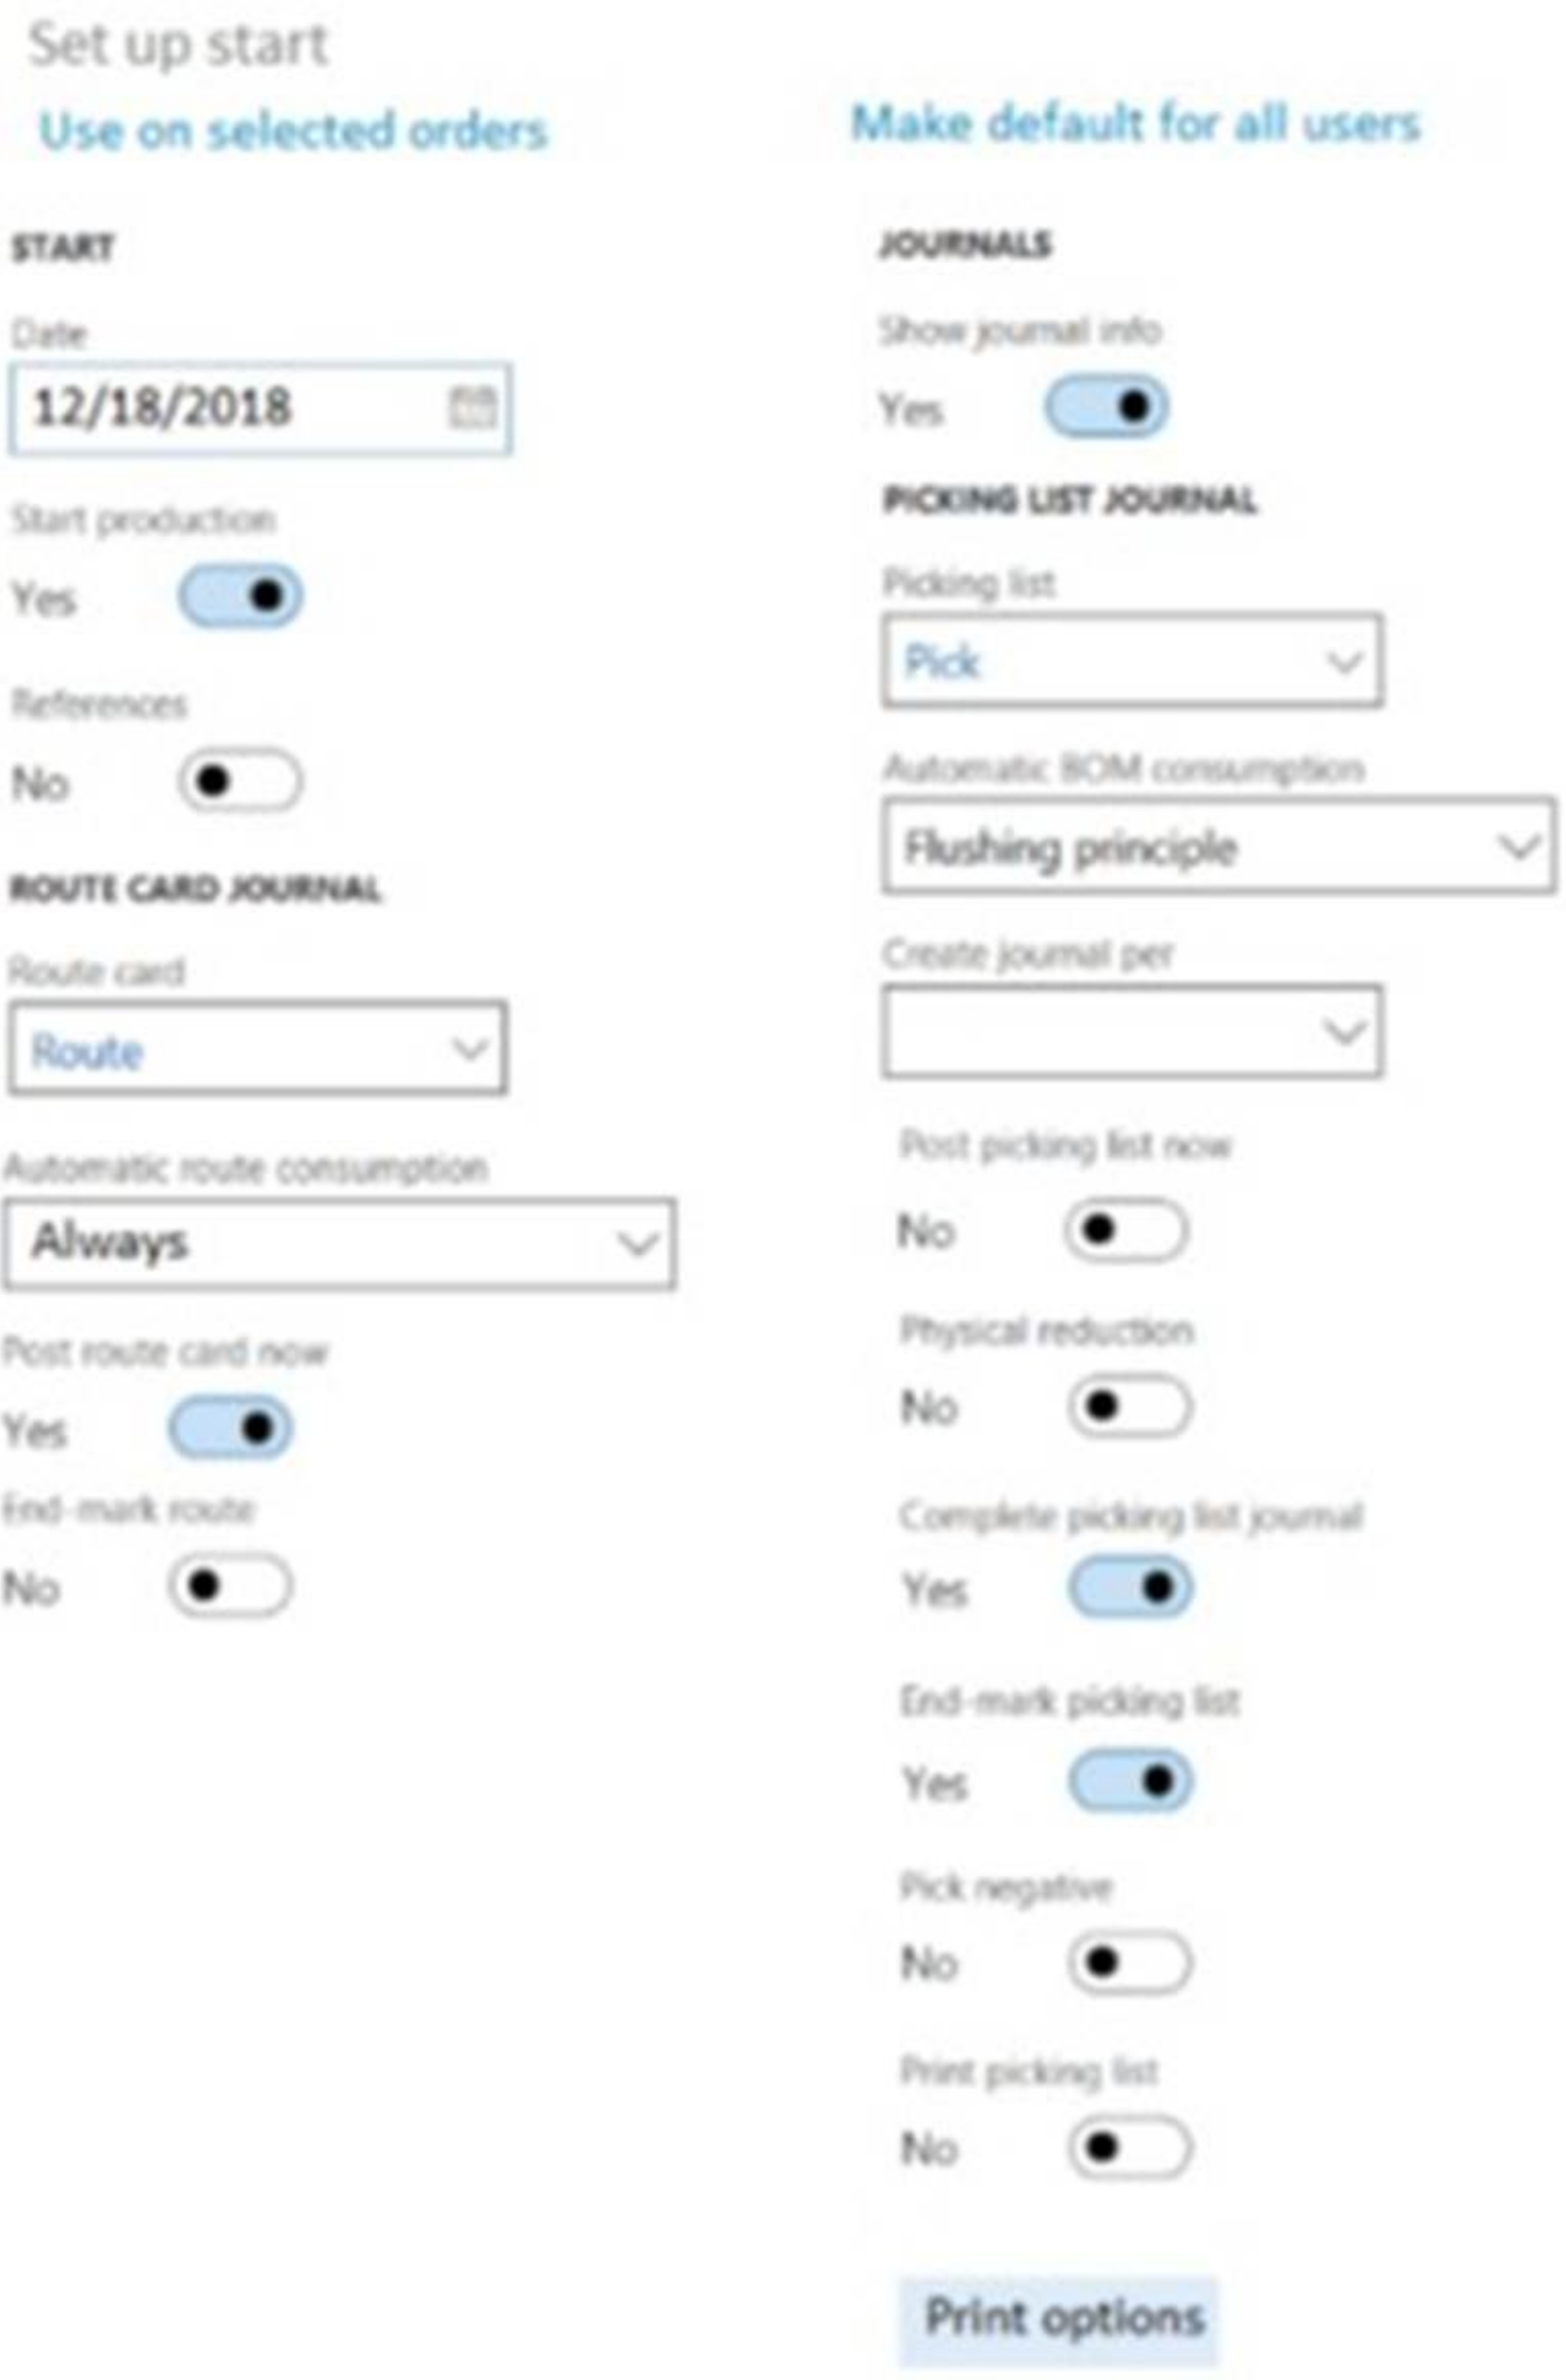
A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 38
HOTSPOT - (Topic 7)
You are a manufacturing consultant helping a client test out different bill of material (BOM) and route consumption options when starting production orders. Material and labor consumption are to be completed before Report as finish.
You are running a production order with BOM lines that have a Flushing principle set to Start. The Automatic Route Consumption Runtime has been set to Yes.
You have set up the default Start user options for all production orders as shown in the exhibit below.



Set up start
Use on selected orders

An unposted picking list is created with consumption quantities blank and end selected

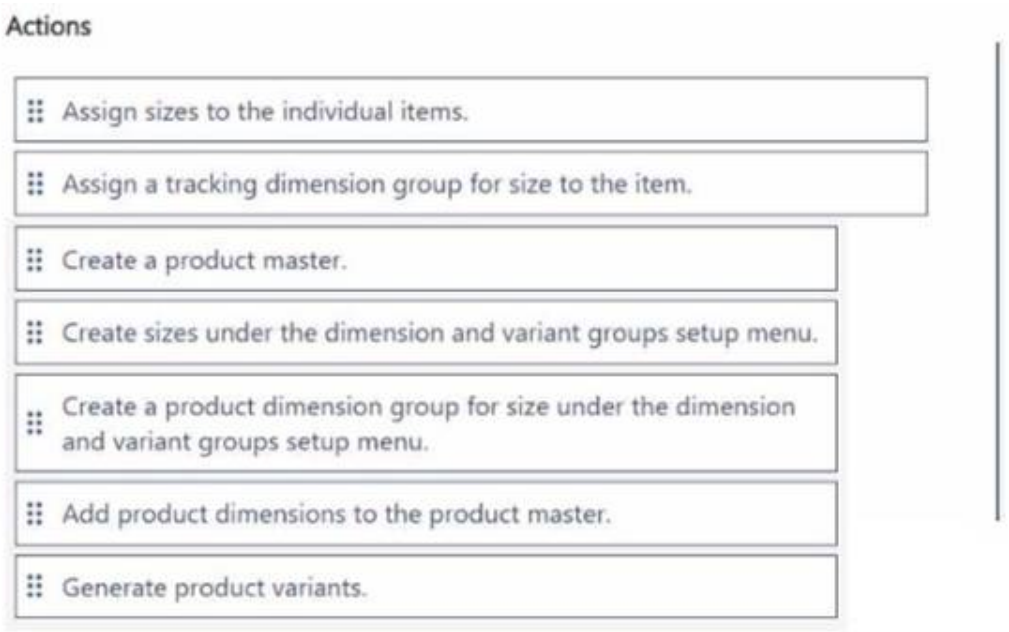
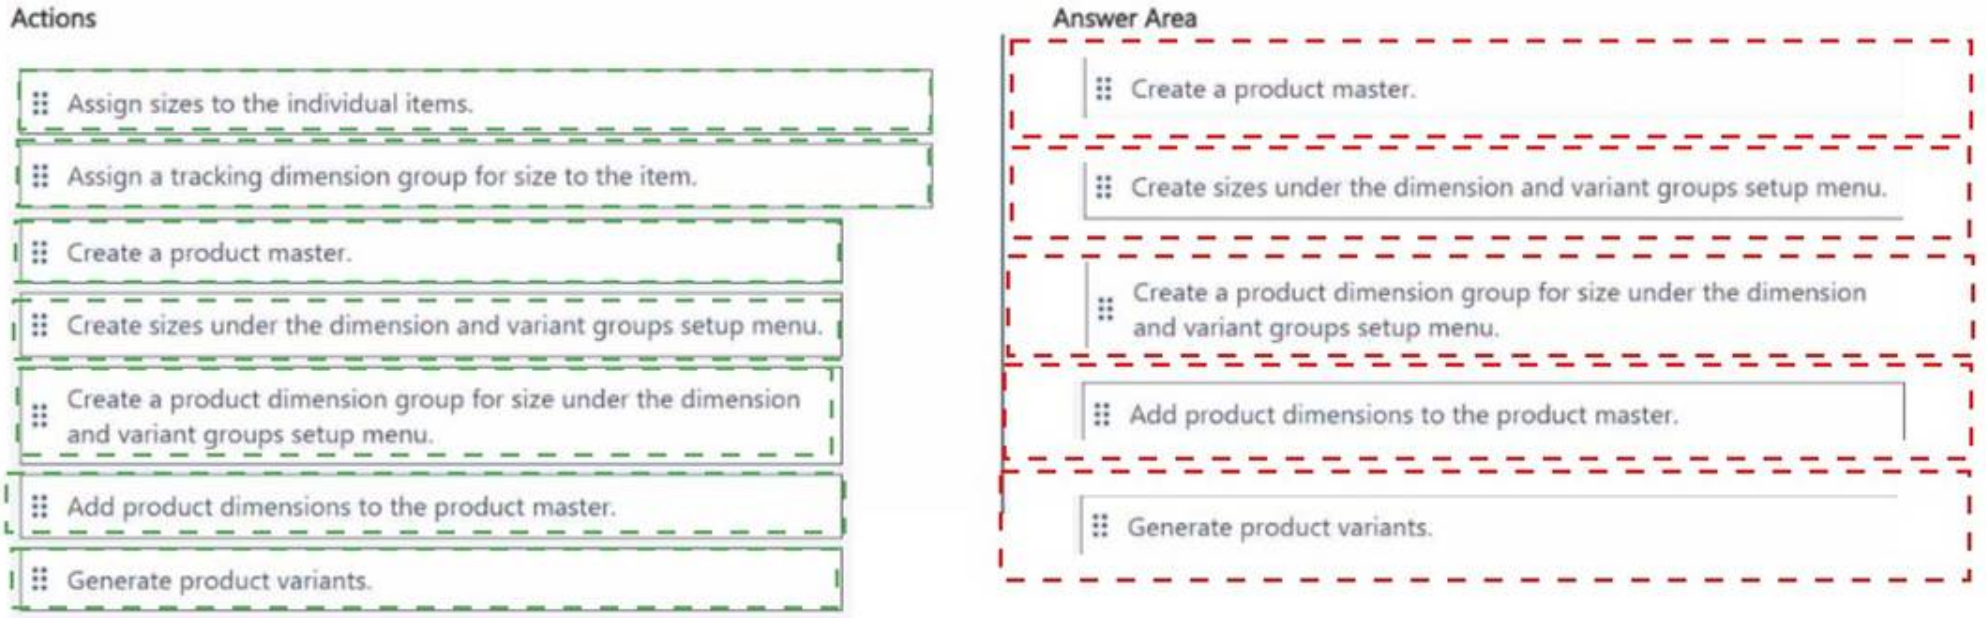
NEW QUESTION 43
DRAG DROP - (Topic 7)
A company uses separate finished good item numbers for size variations of the same product.
The company wants to minimize the number of variously-sized items that are created. You need to perform the setup to allow variants in size to the product master.
Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 48
- (Topic 7)
A company uses Process manufacturing for most products and Discrete manufacturing for other products. The company is creating a formula for a new product. The new item will be used to make a name brand product and two generic brand products.
This item has the following requirements:
• Production of the name brand and generic products must use the same formula.
• The company must produce all three items at the same time.
You need to create a produced item that can make two generic items and one main item. How should you set up the item?

A. Create the name brand item as a Bills of material production type item.Add the two generic items on the Bills of material for the name brand product and use line type phantom
B. Create the name brand item as a Bills of material production type item.Create the two generic items as a sub-assembly on the Bills of material for the name brand product.
C. Create the name brand product as the main product and use a formula production typ
D. Create the two generic items as a formula planning production type planning items.Copy the formula from the name brand item into each of the generic items.
E. Create a product as the main product and use a planning item production typ
F. Create the name brand and two generic products as co-products for the planning item.

Answer: C

NEW QUESTION 49
- (Topic 7)
A company produces homeopathic lotions for pain relief. The lotions use a combination of ProductA and ProductB. ProductA is the primary ingredient. You use Products to adjust the concentration of active ingredients in the lotion. ProductC represents the remainder.
You need to ensure that the lotion final product has a consistent concentration of anti- inflammatory agents.
Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Set the formula line type of ProductB to Active
B. Set the formula line type of ProductA to Compensating
C. Set the formula line type of ProductC to None
D. Set the formula line type of ProductA to Active.
E. Set the formula line type of ProductB to Compensating

Answer: DE

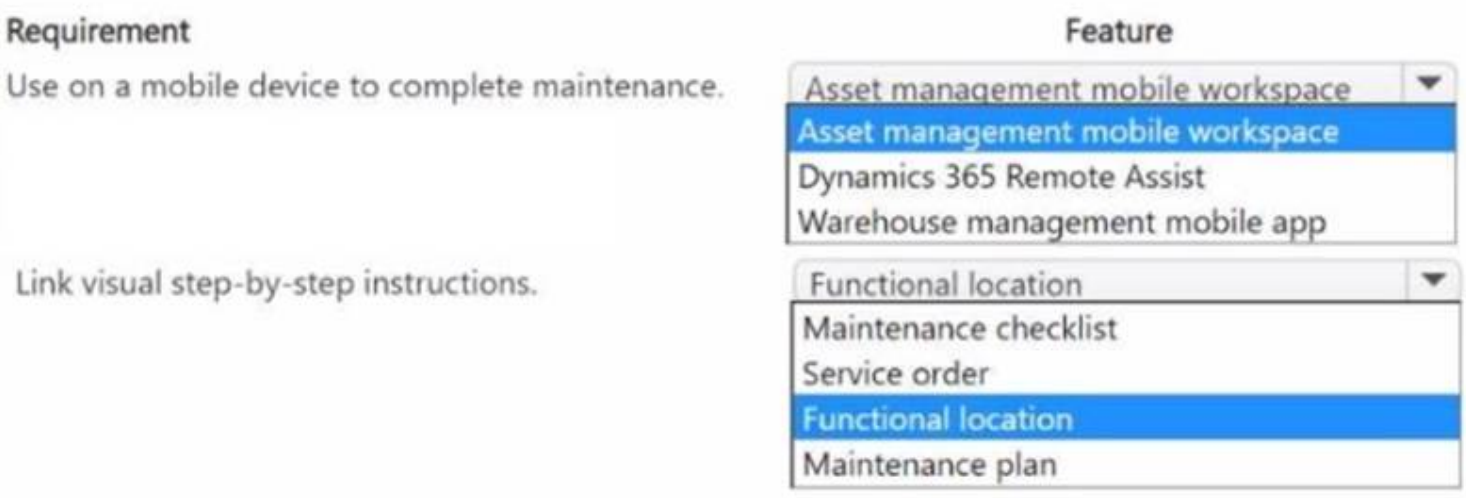
NEW QUESTION 50
- (Topic 7)
You work for a gem wholesaler that sells raw diamonds. Diamonds are purchased and sold in individual boxes but weighed and inventoried in carats.
You are setting up a catch weight item for diamonds. Each box of diamonds must be tracked by its individual container weight.
You need to set up this item as a full visibility catch weight item.
Which two steps must you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Assign the item a Tracking dimension group with active serial number control
B. Assign it a Serial number group with per qt
C. defined as 1.
D. Assign a Tracking dimension group with batch number as the only active tracking dimension.
E. Create an inter-class unit of measure conversion between boxes and carats.

Answer: AD

NEW QUESTION 55
HOTSPOT - (Topic 7)
A company uses Dynamics 365 Supply Chain Management. Technicians travel to several facilities to complete routine maintenance on equipment.
The company recently invested in new equipment. The technicians have no experience maintaining the new equipment. The technicians must be able to perform the following activities:
• Use apps on their mobile device to complete the maintenance.
• Find links to any visual step-by-step instructions related to the new equipment. You need to configure features to assist the technicians.
Which features must you configure? To answer, select the appropriate options in the answer area.

Answer Area



A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 57
- (Topic 7)
A company is implementing repair management for its Dynamics 365 Supply Chain Management.
A customer reports that a printer does not print properly and produces documents that are faded and have streaks.
The company determines that the toner cartridge is malfunctioning. You need to create a plan to address the identified issue.
Which component of the plan should you configure?

A. Repair stages
B. Resolutions
C. Conditions
D. Diagnosis areas

Answer: B

NEW QUESTION 61
- (Topic 7)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
A company implements Dynamics 365 Supply Chain Management and configures the system to support process manufacturing.
The company manufactures pain-relieving lotions. Several of the primary ingredients are delivered at different concentrations depending on the ingredient and vendor. IngredientA is the primary active ingredient in the lotion. IngredientB is used as a compensating ingredient
You need to ensure that the system is set up to support the manufacturing process. Solution: Create a formula version for each concentration level.
Does the solution meet the goal?

A. Yes
B. No

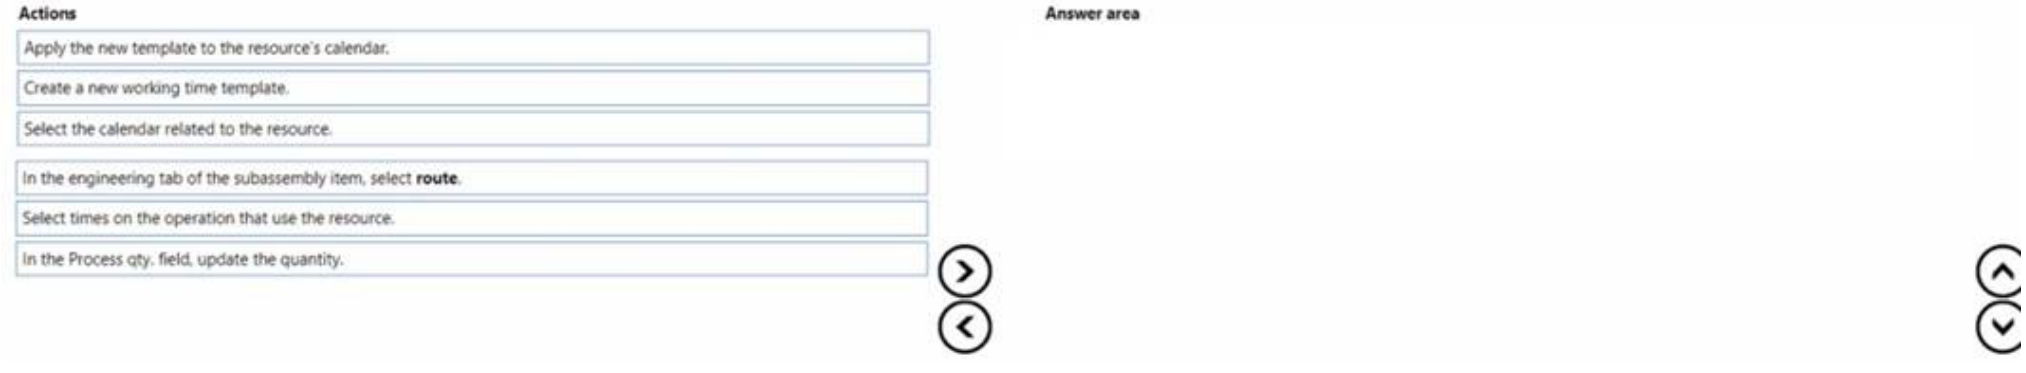
Answer: B

NEW QUESTION 65
- (Topic 7)
A company produces multiple products that require an installation kit that includes 50 components.
The company does not want to include these 50 components in every Bill of materials (BOM). You have a BOW kit that includes all SO components, but you do not want it to produce a separate production order.
You need to set up the product BOM for the finished good. What should you do?

A. Select Phantom on the engineering fast tab on the kit item.
B. Change the coverage group on the kit item to Manual.
C. Change the line type to Pegged supply
D. Change the line type to Phantom

Answer: A

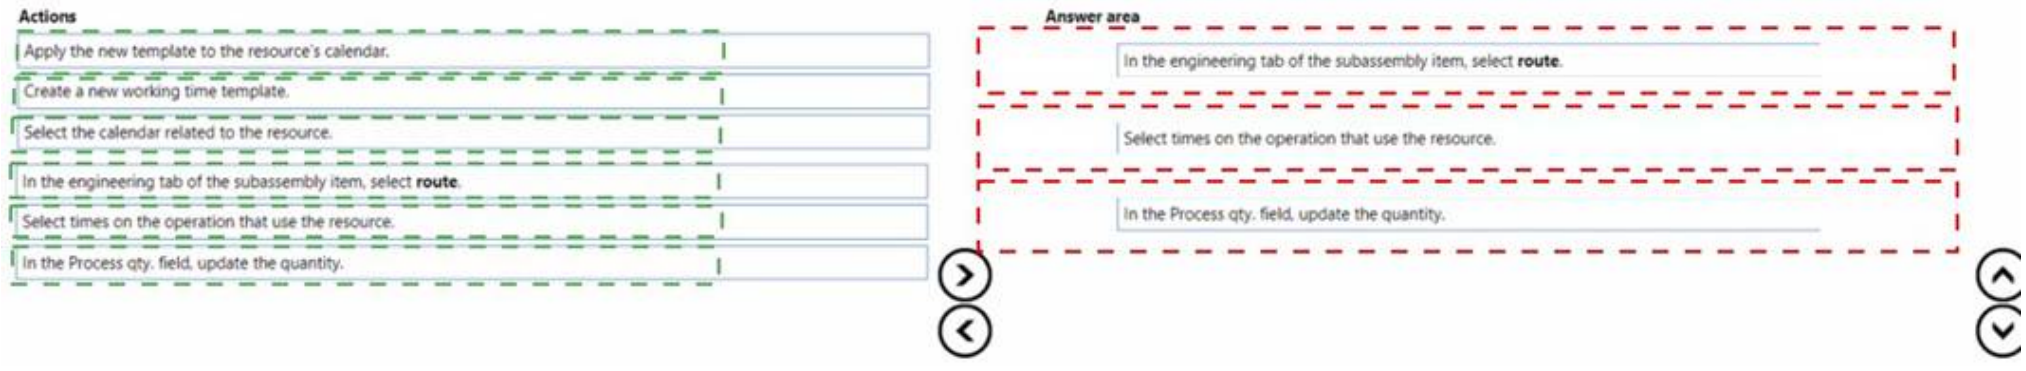
NEW QUESTION 67
DRAG DROP - (Topic 7)
A skateboard manufacturer uses route operations to schedule resources and estimate units per hour. All products use the same sub assembly item and resource sanding process.
You observe an Increase in the number of units a sanding belt resource can produce. The production schedule is now inaccurate due to the number of units the sanding belt line can produce. You must make a permanent change to the number of units the resource can produce for all future orders.
You need to adjust the process quantity on the route operation.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 72
- (Topic 7)
You are responsible for product and formula maintenance for a paint manufacturer. You create a formula for white paint and add its lines. When the formula size increases or an ingredient changes, the quantity of the pigment ingredient must be adjusted proportionately. You need to set up the formula line for the pigment.
Which formula feature should you use?

A. Pegged supply
B. Step consumption
C. Scalable
D. Variable

Answer: C

NEW QUESTION 77
- (Topic 7)
A manufacturing company is implementing production in Dynamics 365 Supply Chain Management.
The production scheduler requires that machines not be scheduled to run concurrently when planning production. The scheduler also must be able to see the scheduling in a graphical view.
You need to configure the system to meet the requirements.
Which three options should you configure? Each answer presents a partial solution. NOTE: Each correct selection is worth one point.

A. Capable to Promise
B. finite capacity
C. bottleneck resource
D. operations scheduling
E. job scheduling

Answer: BDE

NEW QUESTION 81
- (Topic 7)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.
A manufacturing company produces electronic components and devices.
The company has scheduling issues related to using working time calendars in manufacturing.
You need to ensure that the working time calendar is used when manufacturing jobs are scheduled.
Solution: Enable route groups for a capacity job type. Does the solution meet the goal?

A. Yes
B. No

Answer: B

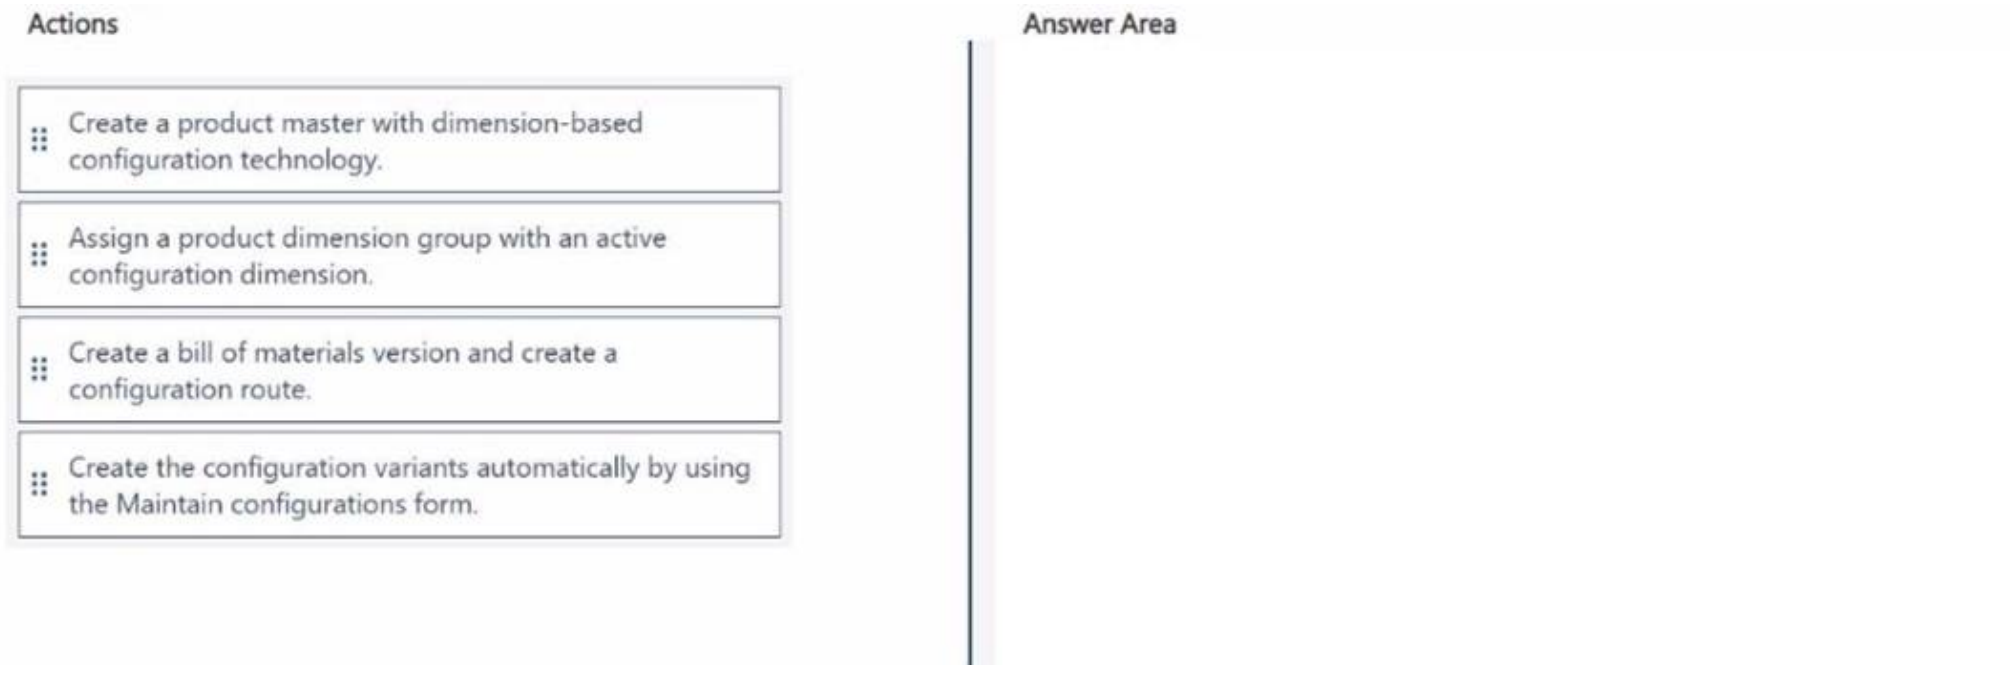
NEW QUESTION 86
DRAG DROP - (Topic 7)
An automobile manufacturer leases cars to companies for use as company cars. A car leased to a company breaks down and requires repairs.
You must open a maintenance request and replace the car with an equivalent model until the original car is repaired and returned to the company. When the manufacture' receives and inspects the car, the replacement car can be released to the company.
You need to select the maintenance request components to use.
Which components should you use? To answer, drag the appropriate components to the correct assets. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
Note: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

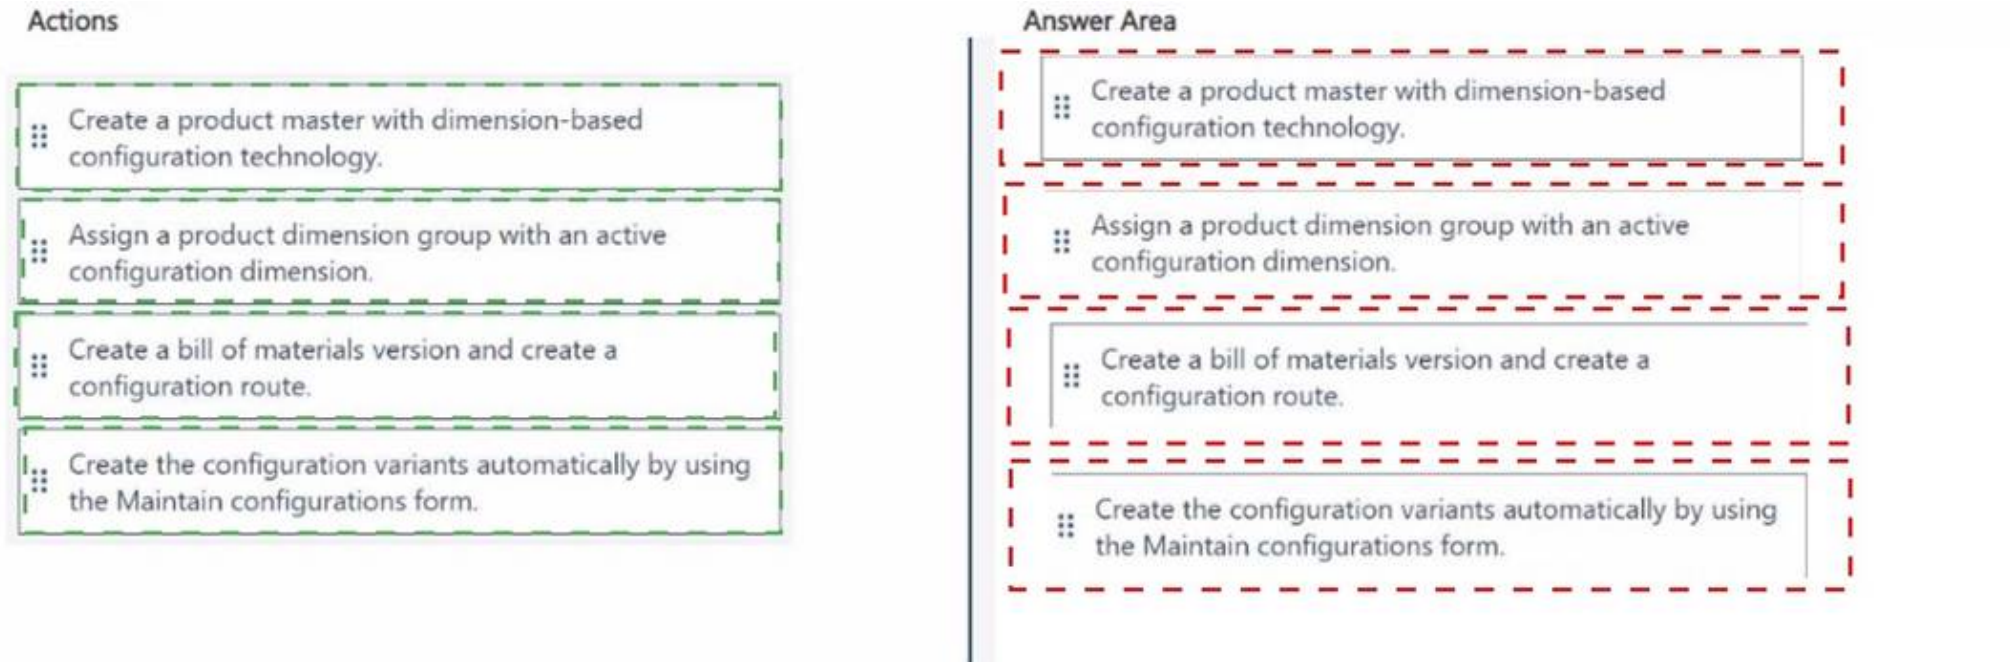
NEW QUESTION 91
DRAG DROP - (Topic 7)
You are the product design manager for a computer manufacturer.
Your new laptop model is configurable. There are restrictions on which hardware components can be selected depending on the model. You create configuration groups for hardware and software.
You need to create a new laptop item number and configurations.
In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 94
- (Topic 7)
You are the lead product design engineer at a plastics manufacturing company.
You implement a new process that uses a single to produce three finished at the same time.
You need to set up the planning items number and formula to correctly to manufacturing the tree items.
Which three actions should you perform? Each correct answer presents part of the solution.

A. Assign co-production to the formula.
B. Specify each of the finished good items as co-products.
C. Create item number for planning item and the associated formula.
D. Add a coverage group to the formula.
E. Add minimum and maximum quantities on formula.

Answer: ABC
