Microsoft

Exam Questions MB-335

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert

NEW QUESTION 1
DRAG DROP - (Topic 1)
You need to implement the scheduled Kanban requirements.
Which rules should you use? To answer, drag the appropriate rules to the correct requirements. Each rule may be used once, more than once, or not at all. You may need to drag the spirt bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 2
- (Topic 1)
You need to plan scheduling for Customer1??s order of unscented solution.
What are two possible ways to achieve the goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Schedule production based on the availability of raw material.
B. Split and plan operations in detail for each of the resources.
C. Schedule productions based on the capacity of the resources.
D. Run master planning with a specific time fence.
E. Plan scheduling of the production at the resource group level.

Answer: CE

NEW QUESTION 3
- (Topic 2)
You need to set up the state control for sales of motorcycles.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Create an inclusive restricted product list for United State
B. Do not add the motorcycle part to the list.
C. Create an inclusive restricted product list for United States and add the motorcycle part to the list.
D. Create an exclusive restricted product list for California and add the motorcycle part to the list.
E. Create an exclusive restricted product list for Missouri and add the motorcycle part to the list.

Answer: BC

NEW QUESTION 4
- (Topic 2)
You need to set up the metal production route and BOM.
Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Set the operation route type as Standard.
B. Set the input warehouse on the resource to the vendor warehouse.
C. Set the operation route type as Vendor.
D. Set all BOM lines warehouse to the production warehouse.
E. Set all the BOM lines to resource consumption.

Answer: BCD

NEW QUESTION 5
- (Topic 5)
You need to resolve the ModelT issue reported by the golf course manager.
Which two features should you configure? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Service subscription
B. Counter-based maintenance plan lines
C. Maintenance plan lines for the location
D. Service type item
E. Time-based maintenance plan lines

Answer: AE

NEW QUESTION 6
- (Topic 5)
You need to resolve the issue reported by Buyer1.
Which two features should you configure? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Assign new engineering version for parent BOM.
B. Enable active for planning for lifecycle status.
C. Assign lifecycle state for parent BOM.
D. Disable active for planning for lifecycle status.
E. Assign lifecycle state for subassembly.

Answer: BE

NEW QUESTION 7
DRAG DROP - (Topic 5)
You need to configure the production requirements of the controller.
What should you configure? To answer, move the appropriate configurations to the correct requirements. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Configurations		Production ledger posting	
Item group		Requirement	Configuration
Item and category		Prototype production postings	
Item and resource		Spare part ledger posting	
Production group			

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Configurations		Production ledger posting	
Item group		Requirement	Configuration
Item and category		Prototype production postings	Item group
Item and resource		Spare part ledger posting	Item and resource
Production group			

NEW QUESTION 8
HOTSPOT - (Topic 6)
You need to determine the batch values on the combined mix batches for OperatorA.
Which values should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

Field	Merged result
Batch Number	Based on batch group ▼
	Manually entered
	Based on batch group
	Lowest
	Highest
Expiration Date	Manually entered ▼
	Based on batch dates group
	Manually entered
	Lowest
	Highest
Lot/Serial Control Number	All are retained ▼
	All are retained
	Manually entered
	Lowest
	Highest

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Answer Area

Field	Merged result
Batch Number	Based on batch group ▼
	Manually entered
	Based on batch group
	Lowest
	Highest
Expiration Date	Manually entered ▼
	Based on batch dates group
	Manually entered
	Lowest
	Highest
Lot/Serial Control Number	All are retained ▼
	All are retained
	Manually entered
	Lowest
	Highest

NEW QUESTION 9

- (Topic 7)
A manufacturing company uses time and attendance in Dynamics 365 Supply Chain Management.
Break times are paid. The cost of a break time must be charged at the pay rate of the job in progress when the break starts.
You need to configure the break times to charge against the job in progress. Which two actions should you perform? Each answer presents a partial solution.
NOTE; Each correct selection is worth one point.

A. Set Production Order Cost Category to Yes.
B. Set Direct Payroll Cost Standard Time to Allocate.
C. Set Production Order Cost Category to No.
D. Set Direct Payroll Cost Standard Time to Yes.
E. Set Direct Payroll Cost Standard Time to No.

Answer: AD

NEW QUESTION 10
- (Topic 7)
You produce 100 total units of finished goods. The amount of material used to produce the goods is the equivalent amount of material needed to produce 105 finished goods.
The company must track variances in material compared to the original estimated amount. You must only use one picking list journal for each production order.
You need to post a picking list that accounts for the material required to produce 105 finished goods.
What should you do?

A. Report as finished five additional units in the error quantity field.
B. When creating the lines for a picking list, set the value of the quantity option to 105.
C. Post a picking list for 100 to account for the originally estimated amoun
D. Post an additional picking list to account for the equivalent amount of material to produce 5 finished goods.
E. In the Bill of materials production details, edit the estimated amount for each line to equal 105 units of raw material.

Answer: B

NEW QUESTION 10
HOTSPOT - (Topic 7)
A company implements Dynamics 365 for Finance and Operations. You must use
functionality in the system for group production runs to prevent downtime and excessive cleaning of the machines on the production line.
You need to set up the system.
Which behaviors should you expect? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Scenario	Expected planning behavior
You set up a coverage time horizon of 120 days, a sequence time horizon of 60 days, and a campaign cycle of 30 days.	Two complete campaign cycles of 30 days, each within the 60-days sequencing time horizon.
	Three complete campaign cycles of 30 days, each within the 60-days sequencing time horizon.
	One complete campaign cycle of 120 days.
You set up a sequencing ID for 50 gram, 100 gram, and 200 gram packages. You assign ranking values as 1, 5, and 10 respectively.	50 gram packets, then 100 gram packets, then 200 gram packets
	200 gram packets, then 100 gram packets, then 50 gram packets

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Scenario	Expected planning behavior
You set up a coverage time horizon of 120 days, a sequence time horizon of 60 days, and a campaign cycle of 30 days.	Two complete campaign cycles of 30 days, each within the 60-days sequencing time horizon.
	Three complete campaign cycles of 30 days, each within the 60-days sequencing time horizon.
	One complete campaign cycle of 120 days.
You set up a sequencing ID for 50 gram, 100 gram, and 200 gram packages. You assign ranking values as 1, 5, and 10 respectively.	50 gram packets, then 100 gram packets, then 200 gram packets
	200 gram packets, then 100 gram packets, then 50 gram packets

NEW QUESTION 15
- (Topic 7)
A company has a Dynamics 365 Supply Chain Management implementation. The company plans a promotional sales campaign that targets top customers.
The sales campaign will guarantee that orders are delivered within a specific two-week period.
The system configuration must prioritize a group of similar production orders so they can be scheduled at the same time.
You need to configure the system. What should you create?

A. Production pool
B. Production flow model
C. Production unit
D. Production group

Answer: A

NEW QUESTION 20
- (Topic 7)
You are a process engineer evaluating lean vs. Discrete processing. You warn to convert a Kanban item. This item has the following Lean setup:
• The setup uses a lean schedule group with a throughput ratio = 2.
• The process activity tied to production flow has the following runtime activity times: time = 3 mm. per quantity = 1.
• The work cell capacity has a model type of Throughput and an average throughput quantity of 60 per a capacity period of standard workday (8-hour day).
• The throughput is 10 per hour.
You need to set up a Discrete operation to mirror the item s production flow activity. What should you do?

A. Create a route with a runtime = 1, a process quantity = 10. and the operation's hours/time = 1.
B. Create a route with a runtime - 6, a process quantity- 1, and the operation's hours/time - 1.
C. Create a route with a runtime = 10. a process quantity = 6. and the operation's hours/time= 1.
D. Create a route with a runtime = 1. a process quantity = 1, and the operation's hours/time = 1.

Answer: B

NEW QUESTION 24
- (Topic 7)
A company uses Dynamics 365 Supply Chain Management for Process manufacturing.
You are reviewing the planned production orders for the next two weeks. There are several production orders for the same product. One order is scheduled to run the week after another order.
You need to optimize the planned production orders. What should you do?

A. In Planned orders, combine the production orders.
B. Firm the orders.
C. Rerun master plannin
D. Select the dynamic plan with a coverage time fence of two weeks.
E. Rerun master plannin
F. Select the static plan with a coverage time fence of two weeks.

Answer: C

NEW QUESTION 25
DRAG DROP - (Topic 7)
A company uses multiple Dynamics 365 applications to track and repair equipment.
The company wants to improve its repair order process. Repair technicians frequently encounter unexpected issues daily. The technicians must be empowered to address the issues and create new work orders by doing the following:
• Provide step-by-step, just-in-time training for work order completion in the field by using videos and text.
• Document work order creation in a single, printable document.
• Report on the use of hands-on training.
You need to implement a solution forth requirements.
Which solution should you implement for each requirement? To answer, drag the appropriate solutions to the correct requirements. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Solutions

Dynamics 365 Guides	Dynamics 365 Remote Assist
Dynamics 365 Connected Spaces	Dynamics 365 Supply Chain Management

Answer Area

Requirement	Solution
Just-in-time training	Dynamics 365 Guides
Work order creation document	Dynamics 365 Supply Chain Management
Training reporting	Dynamics 365 Guides

NEW QUESTION 28
DRAG DROP - (Topic 7)
A discrete manufacturer uses the time and attendance registration for production operations.
All employees register daily clock in and clock out times during a 40-hour. Monday through Friday workweek.
Pay periods are every two weeks. Workers are paid hourly.
The production manager will create work schedules with the following windows:
• Mandatory work hours
• Work hours during which employees can leave early without accruing absences
• Work hours during which employees can work extra time
If a junior production worker works over 90 hours in a pay period. the worker will receive lime and a half over 80 hours. If a senior production worker works over 90 hours in a pay period, the worker will receive double time over 80 hours.
Vou need to configure the system for these requirements.
Where should you configure this functionality? To answer, drag the appropriate forms to the correct requirements. Each form may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Forms

- Workers
- Flex groups
- Worker groups
- Calendar working times

Answer Area

Requirement	Form
Configure the overtime calculations.	
Configure the periods of time that a worker can choose whether to work.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Forms

- Workers
- Flex groups
- Worker groups
- Calendar working times

Answer Area

Requirement	Form
Configure the overtime calculations.	Workers
Configure the periods of time that a worker can choose whether to work.	Flex groups

NEW QUESTION 33
- (Topic 7)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
A company implements Dynamics 365 Supply Chain Management and configures the system to support process manufacturing.
The company manufactures pain-relieving lotions. Several of the primary ingredients are delivered at different concentrations depending on the ingredient and vendor. Ingredient A is the primary active ingredient in the lotion. IngredientB is used as a compensating ingredient.
You need to ensure that the system is set up to support the manufacturing process. Solution: Create a dimension-based product with configurations. Use a price model to
calculate the different configurable option costs.
Does the solution meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 36
HOTSPOT - (Topic 7)

You are the production scheduler at a manufacturing company. You schedule estimated production orders and ensure that capacity is used efficiently.
You have an order that must be scheduled at the resource group level and scheduled backward from the delivery date specified on the production order.
You need to schedule the order.
Which scheduling parameters should you use? To answer, select the appropriate option in the answer area.
NOTE: Each correct selection is worth one point.

Parameter	Selection
Scheduling type	▼ Job scheduling / Operations scheduling
Scheduling direction	▼ Backward from delivery date / Backward from action date / Backward from futures date / Backward from scheduling date

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Parameter	Selection
Scheduling type	▼ Job scheduling / *Operations scheduling*
Scheduling direction	▼ *Backward from delivery date* / Backward from action date / Backward from futures date / Backward from scheduling date

NEW QUESTION 40
- (Topic 7)
A company uses Dynamics 365 Supply Chain Management. Equipment installations in multiple regional locations require monthly maintenance.
Two maintenance technicians have holiday time off scheduled this month.
You need to ensure that all scheduled work orders are completed within the month around the holiday schedules.
Which feature should you use?

A. Capacity toad calculation
B. Operations scheduling
C. Activity-based subcontracting
D. Planning optimization
E. Job scheduling

Answer: E

NEW QUESTION 42
- (Topic 7)
You are building the Bill of materials (BOM) for a new production item. The new item has a subcomponent.
Subproduction orders for the subcomponent must be created when estimating production orders.
You need to configure the BOM line to generate sub production orders. Which BOM line type should you use?

A. Vendor
B. Item
C. Phantom
D. Pegged supply

Answer: D

NEW QUESTION 44
DRAG DROP - (Topic 7)
A company uses the asset management module in Dynamics 365 Supply Chain Management.
A machine on the shop floor is noisy and emitting and odd smell. The shop floor manager must alert the repair team that the asset might require a repair, or a series of repairs, by one or more specialized repair technicians. All repair records must tie back to the initial investigation records in case of a safety audit.
You need to create components to initiate the process of tracking the requests.
Which three actions should you perform in sequence? To answer. More the appropriate actions from the list of actions to the answer to the answer area and arrange them in the correct order.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 46
- (Topic 7)
You are using the manufacturing execution module in Dynamics 365 Supply Chain Management. License plate labels must be printed for products in the Report as finished step. You need to use the manufacturing execution functionality that meets this requirement. What should you use?

A. Work templates
B. Load planning workbench
C. License plates
D. Job card device

Answer: C

NEW QUESTION 51
- (Topic 7)
A manufacturer uses Dynamics 365 Supply Chain Management to build bicycles.
When manufacturing releases production orders to the warehouse, the warehouse must avoid automatically releasing the bill of materials (BOM) and formula lines.
The BOM and formula lines must be manually released later through a batch process.
You need to configure the functionality for the records.
At which two locations should you configure this functionality? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. item model group
B. site
C. warehouse
D. legal entity
E. production order

Answer: CE

NEW QUESTION 55
- (Topic 7)

A company produces homeopathic lotions for pain relief. The lotions use a combination of ProductA and ProductB. ProductA is the primary ingredient. You use Products to adjust the concentration of active ingredients in the lotion. ProductC represents the remainder.
You need to ensure that the lotion final product has a consistent concentration of anti- inflammatory agents.
Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Set the formula line type of ProductB to Active
B. Set the formula line type of ProductA to Compensating
C. Set the formula line type of ProductC to None
D. Set the formula line type of ProductA to Active.
E. Set the formula line type of ProductB to Compensating

Answer: DE

NEW QUESTION 60
- (Topic 7)
A manufacturing company uses discreet manufacturing to make skateboards. Production order picking lists are manually posted after finished good are reported as finished.
A production order has six picking lists posted. The quantities on the picking lists do not match any of the reported or finished quantities. This causes an inventory error for the raw materials. All taw material transactions must be tracked on production order and reconciled.
You need to process a single picking list for each production order. What should you do first?

A. Delete the six posted picking list journals.
B. Create a counting journal to reconcile the inventory that was posted in error.
C. Create a production picking lis
D. When creating lines select option Full reversal.
E. Create a movement journal and select the proper account for production postings to reconcile the inventory that was posted in error.

Answer: C

NEW QUESTION 65
- (Topic 7)
You are configuring the production floor execution interface in Dynamics 365 Supply Chain Management.
The current configuration of the production floor execution interface hinders efficient production floor operations and impedes worker productivity.
You need to optimize the production floor execution interface configuration. What should you do?

A. Enable Use the actual time of registration and Single worker.
B. Select specific tabs to display in the production floor execution interface.
C. Deactivate Use the actual time of registration and Single worker.
D. Activate Allow locking the touchscreen and then specify a Screen lock duration.

Answer: C

NEW QUESTION 66
- (Topic 7)
You work for a gem wholesaler that sells raw diamonds. Diamonds are purchased and sold in individual boxes but weighed and inventoried in carats.
You are setting up a catch weight item for diamonds. Each box of diamonds must be tracked by its individual container weight.
You need to set up this item as a full visibility catch weight item.
Which two steps must you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Assign the item a Tracking dimension group with active serial number control
B. Assign it a Serial number group with per qt
C. defined as 1.
D. Assign a Tracking dimension group with batch number as the only active tracking dimension.
E. Create an inter-class unit of measure conversion between boxes and carats.

Answer: AD

NEW QUESTION 69
HOTSPOT - (Topic 7)
A client uses Dynamics 365 Supply Chain Management. The client is implementing production control.
You need to verity production quantities and costs at the end of each month. Which production order status values should you search for? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Production order status
View production orders in the job registration form.	Report as Finished ▼ Created Estimated Scheduled **Report as Finished**
View posted final costs.	Ended ▼ **Ended** Released Reported as Finished Scheduled

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Answer Area

Requirement	Production order status
View production orders in the job registration form.	Report as Finished ▼ Created Estimated Scheduled **Report as Finished**
View posted final costs.	Ended ▼ **Ended** Released Reported as Finished Scheduled

NEW QUESTION 71
- (Topic 7)
A company produces multiple products that require an installation kit that includes 50 components.
The company does not want to include these 50 components in every Bill of materials (BOM). You have a BOW kit that includes all SO components, but you do not want it to produce a separate production order.
You need to set up the product BOM for the finished good. What should you do?

A. Select Phantom on the engineering fast tab on the kit item.
B. Change the coverage group on the kit item to Manual.
C. Change the line type to Pegged supply
D. Change the line type to Phantom

Answer: A

NEW QUESTION 73
- (Topic 7)
A manufacturing company is implementing production in Dynamics 365 Supply Chain Management.
The production scheduler requires that machines not be scheduled to run concurrently when planning production. The scheduler also must be able to see the scheduling in a graphical view.
You need to configure the system to meet the requirements.
Which three options should you configure? Each answer presents a partial solution. NOTE: Each correct selection is worth one point.

A. Capable to Promise
B. finite capacity
C. bottleneck resource
D. operations scheduling
E. job scheduling

Answer: BDE

NEW QUESTION 74
DRAG DROP - (Topic 7)
An automobile manufacturer leases cars to companies for use as company cars. A car leased to a company breaks down and requires repairs.
You must open a maintenance request and replace the car with an equivalent model until the original car is repaired and returned to the company. When the manufacture' receives and inspects the car, the replacement car can be released to the company.
You need to select the maintenance request components to use.
Which components should you use? To answer, drag the appropriate components to the correct assets. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
Note: Each correct selection is worth one point.

Components			Answer Area	
Asset loan	Inbound asset		Asset	Component
Fixed asset lease	Outbound asset		The leased car that must be repaired	
			The replacement car for the leased car	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Components			Answer Area	
Asset loan	Inbound asset		Asset	Component
Fixed asset lease	Outbound asset		The leased car that must be repaired	Inbound asset
			The replacement car for the leased car	Outbound asset

NEW QUESTION 78
DRAG DROP - (Topic 7)
You are the product design manager for a computer manufacturer.
Your new laptop model is configurable. There are restrictions on which hardware components can be selected depending on the model. You create configuration groups for hardware and software.
You need to create a new laptop item number and configurations.
In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Create a product master with dimension-based configuration technology.	
Assign a product dimension group with an active configuration dimension.	
Create a bill of materials version and create a configuration route.	
Create the configuration variants automatically by using the Maintain configurations form.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Actions

:: Create a product master with dimension-based configuration technology.
:: Assign a product dimension group with an active configuration dimension.
:: Create a bill of materials version and create a configuration route.
:: Create the configuration variants automatically by using the Maintain configurations form.

Answer Area

:: Create a product master with dimension-based configuration technology.
:: Assign a product dimension group with an active configuration dimension.
:: Create a bill of materials version and create a configuration route.
:: Create the configuration variants automatically by using the Maintain configurations form.

NEW QUESTION 83

HOTSPOT - (Topic 7)

A discrete manufacturer uses Dynamics 365 Supply Cham Management for time and attendance registrations on the shop floor.

Production worker A and production worker 8 clock in at 7 AM. They clock out at different times. Their work schedules are shown in the following table.

Standard time	Break	Standard time	Flex-	Flex+
8 AM to 11:30 AM	11:30 AM to 12:30 PM	12:30 PM to 3 PM	3 PM to 4 PM	4 PM to 6 PM

You need to determine how the current configuration will book the time.

What is logged in the system for each worker? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Result
Worker A clocks out at 2:30 PM.	An absence of 30 minutes is logged. ▼ An absence is not logged. **An absence of 30 minutes is logged.** 30 minutes is added to a flex account. 30 minutes is removed from a flex account.
Worker B clocks out at 3:30 PM.	30 minutes is added to a flex account. ▼ An absence of 30 minutes is logged. **30 minutes is added to a flex account.** 30 minutes is removed from a flex account. 90 minutes of non-work time is added toward overtime.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Answer Area

Scenario	Result
Worker A clocks out at 2:30 PM.	An absence of 30 minutes is logged. ▼ An absence is not logged. **An absence of 30 minutes is logged.** 30 minutes is added to a flex account. 30 minutes is removed from a flex account.
Worker B clocks out at 3:30 PM.	30 minutes is added to a flex account. ▼ An absence of 30 minutes is logged. **30 minutes is added to a flex account.** 30 minutes is removed from a flex account. 90 minutes of non-work time is added toward overtime.

NEW QUESTION 85

- (Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution. Determine whether the solution meets the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to It. As a result, these questions will not appear in the review screen.

A manufacturing company has a new speaker that is available with standard and premium carbon fiber options.

For the premium option, speakers are made to order. Customers can choose from seven product attributes at different prices.

You need to create and configure the product and pricing for the new speaker. Solution: Create a constraint-based product with configurations. Use a price model to

calculate the different configurable option costs.

Docs the solution meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 88
DRAG DROP - (Topic 7)
A company is implementing Dynamics 365 Supply Chain Management The company is a subcontractor that produces subassemblies for two major customers. CustomerA and Customers

The company prioritizes CustomerA production orders to start on Mondays. The production orders may take several days to complete. Customers?? orders are produced throughout the week, after CustomerA orders are completed. Work in process (W1P) must be calculated and consolidated for CustomerA and CustomerB respectively on the financial reports.

You need to configure the production requirements.

What should you configure? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations		Answer Area
Route group	Production unit	
Production pool	Production group	

Requirement	Configuration
Prioritize CustomerA orders.	
Separate WIP on financial reports.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Configurations	
Route group	Production unit
Production pool	Production group

Answer Area

Requirement	Configuration
Prioritize CustomerA orders.	Production pool
Separate WIP on financial reports.	Production group
