Answer: B

NEW QUESTION 5
SuperBank is considering a cloud service from Local Data Center, Inc., to support the bank's expanding needs. SuperBank's managers are concerned about security. What can SuperBank request to protect its data from security threats?

A. For Local Data Center to run multiple hypervisors
B. For Local Data Center to install a DDoS mitigation system
C. For SuperBank staff to manage the servers at Local Data Center, Inc.
D. For SuperBank to perform background checks on the staff at Local Data Center, Inc.

Answer: D

NEW QUESTION 6
Virtualization software transforms the hardware resources of a physical computer to create a fully functional virtual computer that can run its own operating systems and applications. In addition to the CPU and RAM, which hardware resources are used by virtualization software?

A. Hard disk and USB devices
B. Hard disk and network devices
C. Virtual hard disk and network devices
D. Network devices and secondary storage devices

Answer: B

NEW QUESTION 7
Disaster recovery planning is considered a best practice for all organizations. It is even more important when cloud-computing services are used. Which of the following should be included as part of a disaster recovery plan for companies that use cloud-based services?

A. Company organizational chart
B. Malware and anti-virus software updates
C. Service-level agreement with a cloud-provider
D. Inventory of services not dependent on the cloud provider

Answer: C

NEW QUESTION 8
Gwen works for a small company where she has been asked to find a cost-effective option for providing comprehensive customer service. The finance, technical support, sales and customer service departments all need to share information about their customers. Gwen is considering adoption of a customer relationship management (CRM) application. Which of the following would be the most cost-effective solution?

A. She can purchase a new server, then create and maintain the CRM in-house.
B. She can outsource all customer service so the company can focus on product development.
C. She can contract with a cloud service provider to host the CRM that her company's employees can access.
D. She can hire a programmer to develop and maintain the CRM specific to her company's needs, then have a service provider host the application.

Answer: C

NEW QUESTION 9
Carlos is the Information Technology (IT) administrator for a small company. Over the past year, employees have been using their personal mobile devices and smartphones for business use. This has reduced costs of purchasing new devices for employees. Carlos is now considering whether he should stop supplying employees with company phones and instead require all employees to use their personal smartphones for work. How can Carlos address the most significant security vulnerability?

A. Develop a robust app to push security updates out to the various mobile OS devices
B. Create an employee policy that requires employees to keep phones updated to the latest technology
C. Create a policy that specifies acceptable use, ensuring security measures are in place for mobile devices
D. Mandate that employees switch to the company's mobile service provider to ensure security policies are enforced

Answer: C

NEW QUESTION 10
Wireless networks are subject to more security issues than standard wired networks. Which wireless security protocol can prevent unauthorized devices from connecting to the wireless network?

A. WPA2
B. RSA
C. AES
D. DES

Answer: A

NEW QUESTION 10
